

## Battery Replacement

Rechargeable batteries become worn with repeated charge/discharge cycles, and the amount of time they can be used when fully charged will decrease gradually over time (after 500 charges, usage time may be reduced to 70%). If you feel the usage time has dropped off noticeably, replace the battery.

**IMPORTANT:** Batteries should always be replaced by an adult.

### Wii U GamePad

Do not use any battery other than the Wii U rechargeable battery, Model No. WUP-012. A replacement battery can be ordered from the Nintendo website at [store.nintendo.com](http://store.nintendo.com) (USA/Canada only) or by calling Customer Service at 1-800-255-2793.

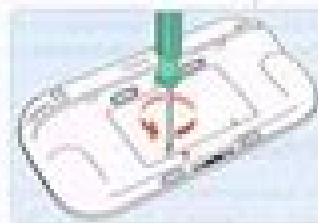

- To avoid damage to the screen or threads, use a screwdriver that is appropriate for the screws (crosshead style, size 0).
- Before replacing the battery, turn the power off and disconnect the AC adapter if it is connected to the controller.

- 1** Press and hold  for at least one second to turn off the power.

- 2** Loosen the battery cover screws.

The battery cover is designed so the screws can be loosened, but not fully removed.

- 3** Remove the battery cover.

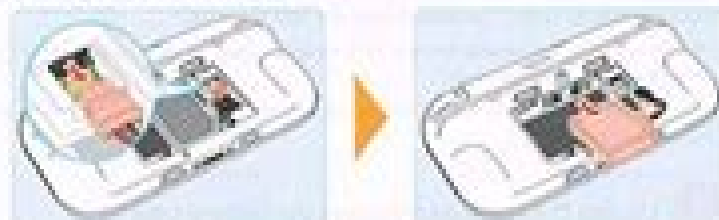

Lift the edge of the battery cover slightly and then remove it as shown below.

- 4** Remove the battery.

Unplug the connector first, and then remove the battery, as shown below.

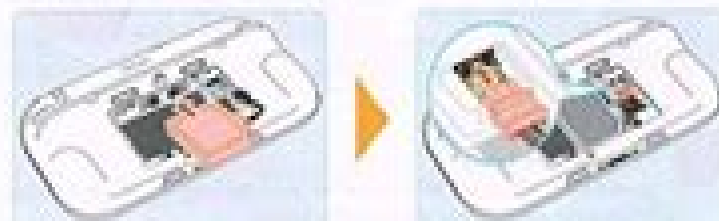

- When disconnecting the battery cable, pull by the plug, not the cable.
- Please recycle the used battery ([go.455](http://go.455)).

- 5** Wait at least 10 seconds before inserting the new battery.

Make sure the battery is oriented correctly, as shown below.

- Waiting 10 seconds will allow the power LED to reset correctly.

- 6** Replace the battery cover.

After replacing the battery cover, tighten the two screws, being careful not to over-tighten them.

**IMPORTANT:** Always be sure to replace the battery cover and tighten the screws before resuming use.
