*The Smartphone* Elizabeth Woyke,2011-05-10 A technology reporter s behind the scenes history of the device that has taken over our lives How have smartphones shaped the way we socialize and interact Who tracks our actions our preferences our movements as recorded by our smartphones These are just some of the questions that Elizabeth Woyke a journalist who has covered the industry for Bloomberg Businessweek Forbes and MIT Technology Review addresses in this book Including photos and an in depth look at the early decades of mobile communication The Smartphone offers not only a step by step account of how smartphones are designed and manufactured but also a bold exploration of the darker side of this massive industry including the exploitation of labor the disposal of electronic waste and the underground networks that hack and smuggle smartphones Featuring interviews with key figures in the development of the smartphone and expert assessments of the industry s main players Apple Google Microsoft and Samsung The Smartphone is the perfect introduction to this most personal of gadgets Your smartphone will never look the same again The author does a good job explaining the relationships among the makers carriers and developers and she delivers an engrossing chapter on design trends Kirkus Reviews

**Distracted** Robert Rosenberger,2024-06-25 Applying insights from philosophy and cognitive science to address the urgent issue of smartphone induced distracted driving Although the dangers of texting while driving are widely known many people resist the idea that phone usage will impair their driving And connectivity features in new cars have only made using technology behind the wheel more tempting What will it take to change people s minds and behavior Robert Rosenberger contends that a better understanding of why this

combination of technologies is so dangerous could effectively adjust both habits and laws Rosenberger brings together ideas from philosophy and cognitive science to leverage a postphenomenological perspective that reveals how our smartphones make us such bad drivers Reviewing decades of empirical studies in cognitive science he shows that we have developed habits of perception regarding our compulsive technology use habits that may wrest our attention away from the road Distracted develops innovative concepts for understanding technology related habits and the ways that our relationships to our devices influence how we perceive the world In turn these ideas can help drivers be more cognizant of the effect that smartphone usage has on their perceptions better inform efforts to enact stricter regulations and help us all to be more reflective about the technologies that shape our lives
