Le Passage Id Service:

Identification des principales zones protégées transfrontalières en Europe Robert Brunner, Council of Europe. Committee for the Activities of the Council of Europe in the field of Biological and Landscape Diversity, 2002-01-01 L'établissement du Réseau écologique paneuropéen représente un des objectifs majeurs de la Stratégie paneuropéenne de la diversité biologique et paysagère. La protection de zones transfrontalières dans le cadre d'un tel réseau écologique composé de groupes de zones protégées pourrait être une étape importante vers la protection du patrimoine naturel en Europe. La coopération transfrontalière offre la possibilité de créer des zones protégées plus vastes et d'harmoniser leur gestion apportant ainsi une contribution très importante à la préservation de la biodiversité. Le présent rapport traite de la coopération transfrontalière dans les pays d'Europe centrale et orientale y compris les pays en transition d'Europe orientale dont la Russie les pays Baltes le Bélarus et l'Ukraine. *Calendar of Manuscripts in Paris Archives and Libraries Relating to the History of the Mississippi Valley to 1803* Carnegie Institution of Washington. The first group of articles focus on documentary evidence especially the polyptychs and their interpretation. Though there is insufficient material for any true quantitative history Professor Devroey argues that the evidence points to demographic expansion coupled with the exploitation of new agricultural methods and crops and a reliance on the family as the unit of production. Further studies relate these estates to the commercial networks of the area from a local to an international level. A final concern is to demonstrate that the large estate formed a key component of the Carolingian rulers' aim to establish the *bonum commune* and a stable society with assured food supplies regulated markets and a just system of weights and measures. L'origine du grand domaine de l'Europe carolingienne et le rôle qu'il jouait dans l'évolution de la société et de l'économie du monde franc sont les thèmes de ce volume. Le premier groupe d'articles se concentre sur des documents et plus spécialement sur les polyptyques et leur interprétation. Bien qu'il n'y ait pas de matériel suffisant pour une histoire quantitative le professeur Devroey soutient que tout indique une expansion démographique laquelle viennent s'ajouter l'exploitation de nouvelles méthodes agricoles et de récoltes ainsi qu'une dépendance vis-à-vis de la famille en tant qu'unité de production. Des études supplémentaires font le lien entre ces

propriétés et les réseaux commerciaux de cette partie du monde du niveau local au niveau international L auteur s efforce finalement de démontrer que le grand domaine était un des facteurs la base de la volonté des dirigeants carolingiens d instaurer le bonum commune et une société stable avec des approvisionnements assurés des marchés
