## AP Macroeconomics, Section 2 Exam Questions and Answers

market - Answers -a group of producers and consumers who exchange a good or service for payment

competitive market - Answers -a market in which there are many buyers and sellers of the same good or service, none of whom can influence the price at which the good or service is sold

supply and demand model - Answers -a model of how a competitive market works

demand schedule - Answers -shows how much of a good or service consumers will be willing and able to buy at different prices

quantity demanded - Answers -the actual amount of good or service consumers are willing and able to buy at some specific price

demand curve - Answers -a graphical representation of the demand schedule; shows the relationship between quantity demanded and price

law of demand - Answers -says that a higher price for a good or service, all other things being equal, leads people to demand a smaller quantity of that good or service

change in demand - Answers -a shift of the demand curve, which changes the quantity demanded at any given price

movement along the demand curve - Answers -movement along the demand curve a change in the quantity demanded of a good that is the result of a change in that good's price

substitutes - Answers -two goods are substitutes if a rise in the price of one of the goods leads to an increase in the demand for the other good; usually goods that in some way serve a similar function; ex. muffins and doughnuts, coffee and tea, train rides and plane flights

complements - Answers -two goods are complements if a rise in the price of one of the goods leads to a decrease in the demand for the other good; usually goods that in some sense are consumed together; ex. cars and gasoline, computers and software, cappuccinos and croissants
