heretofore read by scholars predominantly through the words of Charles Baudelaire Dolan sees in this painting s radical style the conceptual shift to modernism in both painting and music a transition that she convincingly argues received a strong impetus from Manet s Music in the Tuileries and Wagner s controversial Tannh er which premiered the previous year Supplemental to analysis of the painting Dolan incorporates discussion of texts by Theophile Gautier Champfleury and Baudelaire who are represented in the painting This book incorporates studies of the major artistic literary and musical figures of nineteenth century France It represents an important contribution to an understanding of French culture in the third quarter of the nineteenth century a period of intense literary artistic and musical activity that formed the crucible for modernism
