In a 2-Wave™ network, each device is designed to act as a master. These modules will retransmit the RF signal from one device to another until the intended device is reached. This ensures that the signal is received by its intended device by routing the signal around obstacles and radio dead spots. The 1-Scene Controller/Matching Switch Remote is compatible with any 2-Wave™ enabled network. Regardless of the manufacturer and can also be used with other devices displaying the 2-Wave™ logo.
