feelings Unusually articulate and frequently reflective the men of the Harvard College classes of 1771 through 1774 often revealed their ambitions and concerns through their letters and diaries Revolutionary Generation provides the most sustained application of life course and life cycle analysis to be found in any study of late eighteenth or early nineteenth century America At the same time it shows on a personal level through the lives of its subjects many of the most important consequences of the War for Independence **A Student's History of American Literature** William Edward Simonds,1909 *TDR.* ,1994 **Letters from a Self-made Merchant to His Son** George Horace Lorimer,1902
