courts in the implementation of European return policy The book brings together leading authors from various backgrounds including legal scholars judges and practitioners This allows the collection to offer theoretical and practical perspectives on important questions regarding the regulation of irregular migration in Europe such as what constitutes inadequate implementation of the Directive and under which conditions can judicial dialogue solve it How can judges ensure that the right balance is struck between effective return procedures and fundamental rights Why do we see different patterns of judicial dialogue in the Member States when it comes to particular questions of return policy for example regarding the use of detention These questions are more timely than ever given the shifting public discourse on immigration and the growing political backlash against immigration courts This book will be essential reading for all scholars and practitioners in the fields of immigration law and policy EU law and public law

Les principes fondamentaux reconnus par les lois de la République dans la jurisprudence du Conseil constitutionnel Virginie Larsonnier, 2002. Inscrite dans le préambule de la Constitution de 1946, la phrase principes fondamentaux reconnus par les lois de la République n'est pas explicitée par les constituants. Vide de sens juridique, la circonlocution devient une catégorie juridique sous l'action des juridictions. Si dès 1956 le Conseil d'Etat qualifie la liberté d'association de principe fondamental reconnu par les lois de la République, c'est principalement le Conseil constitutionnel qui enrichit la catégorie. Durant les décennies 1970-1980, neuf principes fondamentaux reconnus par les lois de la République seront consacrés, permettant au Conseil de mettre en œuvre une jurisprudence efficiente en matière de protection des droits et libertés essentiels des personnes. Paradoxalement, la catégorie fait l'objet d'une désaffection de la part des membres du palais Montpensier dans les années 1990. En effet, le Conseil constitutionnel renonce à recourir à la catégorie à la suite de virulentes critiques doctrinales dénonçant l'appropriation du pouvoir constituant par le Conseil constitutionnel et l'instauration d'un gouvernement des juges. Cette désaffection génère plusieurs effets pervers : le Conseil tant amende, développer des procédés de substitution discutables d'un point de vue juridique, et se priver d'un instrument pertinent face à l'accroissement des nouveaux champs du droit. Entre une forte extension de la catégorie et une politique de refus systématiques de consacrer de nouveaux principes fondamentaux reconnus par les lois de la République, alors que leurs critères d'identification peuvent être remplis, le Conseil constitutionnel semble aujourd'hui s'engager sur une voie médiane en y faisant appel avec parcimonie quand les circonstances l'exigent.
