

Mount Everest

Challenges

Have you ever been faced with a challenge? It could be one you chose, or one you never expected. Some challenges are more difficult than other challenges, and sometimes they cannot be overcome. However, with hard work and effort, simply facing a challenge and doing your best is just as important as overcoming the challenge.

One of the greatest physical challenges in the world is climbing the highest mountain in the world, **Mount Everest**. It is not only physically challenging, but those who have climbed it say it is mentally and emotionally challenging as well. This is true with all challenges you might face in life.

For example, if you are a swimmer, it may be very challenging to win an important race. You may think about it, then become nervous and anxious. Reading a long book can also be challenging because it can sometimes be difficult to concentrate or find the time to complete the entire book by the deadline.

You may or may not climb Mount Everest, but many people have climbed it successfully; however, people have also lost their lives trying to reach its peak. Mt. Everest is an intriguing and fascinating mountain. It brings explorers from all over the world attempting to successfully climb it. Though the mountain has been in existence for about 60 million years, no one had successfully climbed it until the early 1950s. Many people had tried to scale the giant mountain, but it was not until 1953, when **Sir Edmund Hillary** became the first person in history to reach its peak.
