 Developing Countries** Jasper Cook,Robert Christopher Petts,2023-08-02 Rural Road Engineering in Developing Countries
 provides a comprehensive coverage of the planning design construction and maintenance of rural roads in developing
 countries and emerging nations It covers a wide range of technical and non technical problems that may confront road
 engineers working in the developing world focusing on rural roads which provide important links from villages and farms to
 markets and offer the public access to health education and other services essential for sustainable development Most
 textbooks on road engineering are based on experience in industrialised countries with temperate climates or deal only with
 specific issues with many aspects of the design and construction of roads in developing regions stemming from inappropriate
 research undertaken in Europe and the USA These approaches are frequently unsuitable and unsustainable for rural road
 network environments particularly in low to middle income countries This book takes on board a more recent research and
 application focus on rural roads integrating it for a broad range of readers to access current information on good practice for
 sustainable road engineering in developing countries The book particularly suits transportation engineers development
 professionals and graduate students in civil engineering **The Publishers' Trade List Annual** ,1985 ICE Manual of
