Whitlock,2016-12-05 Whilst the actual origins of English consumer culture are a source of much debate it is clear that the
nineteenth century witnessed a revolution in retailing and consumption Mass production of goods improved transport
facilities and more sophisticated sales techniques brought consumerism to the masses on a scale previously unimaginable Yet
with this new consumerism came new problems and challenges Focusing on retailing in nineteenth century Britain this book
traces the expansion of commodity culture and a mass consumer orientated market and explores the wider social and
cultural implications this had for society Using trial records advertisements newspaper reports literature and popular ballads
it analyses the rise criticism and entrenchment of consumerism by looking at retail changes around the period 1800 1880 and
society s responses to them By viewing this in the context of what had gone before Professor Whitlock emphasizes the key
role women played in this evolution and argues that the dazzling new world of consumption had beginnings that predate the
later English French and American department store cultures It also challenges the view that women were helpless
consumers manipulated by merchants use of colour light and display into excessive purchases or even driven by their desires
into acts of theft With its interdisciplinary approach drawing on social and economic history gender studies cultural studies
and the history of crime this study asks fascinating questions regarding the nature of consumer culture and how society
