Diagram shows a transformer that is 90% efficient.

Primary coil: 100 turns
Secondary coil: 200 turns

Input voltage: 230 V
Output voltage: 460 V

From the equation linking input power and output power for the transformer:

$$P_{\text{input}} = P_{\text{output}}$$

Calculate the input current of the transformer:

$$P_{\text{in}} = P_{\text{out}} \quad 230 \times I_{\text{in}} = 460 \times I_{\text{out}}$$

$$I_{\text{in}} = \frac{460 \times I_{\text{out}}}{230} \quad I_{\text{in}} = \frac{460 \times 1}{230} = 2 \text{ A}$$

Diagram shows a beam of length 1.00 m, pivoted at its center. A weight of 2.0 N is suspended from the left end. A weight of 4.0 N is suspended from the right end. The beam is horizontal.

Define the term center of gravity.

This is a point where the mass of an object is concentrated.

Show that the moment of the 4.0 N weight about the pivot is 20.0 Nm.

$$\text{Moment} = \text{Force} \times \text{Perpendicular distance}$$

$$= 4.0 \times 5.0 = 20.0 \text{ Nm}$$

May June 2013 Physics Paper 1:

Bihar and Mithila J. Albert Rorabacher, 2016-09-13 The struggling states of Bihar and Mithila serve as extreme examples of India's problems. Development here has been thwarted by a hereditary landed aristocracy supported by religion, casteism, custom, social stratification, tradition, and patterns of behaviour that can be traced back millennia. In turn, all these have been masterfully manipulated by co-opted politicians who have turned politics into a veritable art form, as this volume comprehensively demonstrates. Please note: Taylor Francis does not sell or distribute the Hardback in India, Pakistan, Afghanistan, Nepal, Bhutan, Bangladesh, and Sri Lanka.

Globalization Development and Social Justice Ann El Khoury, 2015-03-27 Are there existing alternatives to corporate globalization What are the prospects for and commonalities between communities and movements such as Occupy the World Social Forum and alternative economies Globalization Development and Social Justice advances the proposition that another globalization is not only possible but already exists It demonstrates that there are multiple pathways towards development with social justice and argues that enabling propositional agency rather than oppositional agency such as resistance is a more effective alternative to neoliberal globalization El Khoury develops a theory of infraglobalization that emphasizes creative constitution not just contestation of global and local processes The book features case studies and examples of diverse economic practice and innovative emergent political forms from the Global South and North These case studies are located in the informal social economy and community development as well as everyday practices from prefigurative politics to community cooperatives and participatory planning This book makes an important contribution to

Klinger, 2018-01-15 *Rare Earth Frontiers* is a work of human geography that serves to demystify the powerful elements that make possible the miniaturization of electronics green energy and medical technologies and essential telecommunications and defense systems Julie Michelle Klinger draws attention to the fact that the rare earths we rely on most are as common as copper or lead and this means the implications of their extraction are global Klinger excavates the rich historical origins and ongoing ramifications of the quest to mine rare earths in ever more impossible places Klinger writes about the devastating damage to lives and the environment caused by the exploitation of rare earths She demonstrates in human terms how scarcity myths have been conscripted into diverse geopolitical campaigns that use rare earth mining as a pretext to capture spaces that have historically fallen beyond the grasp of centralized power These include legally and logistically forbidding locations in the Amazon Greenland and Afghanistan and on the Moon Drawing on ethnographic archival and interview data gathered in local languages and offering possible solutions to the problems it documents this book examines the production of the rare earth frontier as a place a concept and a zone of contestation sacrifice and transformation *White Paper on Science and Technology*, 2014 Soviet Physics, Crystallography, 1982 *At Sea Against the Soviet Fleet* Bryan H.
