*A Manual for the Heads of Secondary Schools in Kenya* Kenya. Ministry of Education, 1979      Parents ,2008-07

*Kenya Citizens' Handbook 2002* ,2002      *Kenya* Charles Hornsby, 2013-03-01 Since independence from Great Britain in 1963 Kenya has survived five decades as a functioning nation state holding regular elections its borders and political system intact and avoiding open war with its neighbours and military rule internally It has been a favoured site for Western aid trade investment and tourism and has remained a close security partner for Western governments However Kenya s successive governments have failed to achieve adequate living conditions for most of its citizens violence corruption and tribalism have been ever present and its politics have failed to transcend its history The decisions of the early years of independence and the acts of its leaders in the decades since have changed the country s path in unpredictable ways but key themes of conflicts remain over land money power economic policy national autonomy and the distribution of resources between classes and communities While the country s political institutions have remained stable the nation has changed its population increasing nearly five fold in five decades But the economic and political elite s struggle for state resources and the exploitation of ethnicity for political purposes still threaten the country s existence Today Kenyans are arguing over many of the issues that divided them 50 years ago The new constitution promulgated in 2010 provides an opportunity for national renewal but it must confront a heavy legacy of history This book reveals that history      German Academic Exchange Service (DAAD) in Collaboration with Kenya DAAD Scholars Association (KDSA)---Kenyatta University Chapter Hosted a Conference on Re-invigorating the University Mandate in a Globalizing Environment Ruth Bett, 2005      **Education in Eastern Africa** ,1974      Diversified Secondary Education in Kenya Jon Lauglo, 1986      **Education Versus Qualifications?** John Oxenham, 2024-09-18 Originally published in 1984 this book investigates the validity of educational qualifications how they are determined what justifications exist for them and how they change It examines the assumption linking education and productivity and explores the belief that the ways in which scholastic qualifications are acquired distort education In the investigations the labour market the school and community are not treated as black boxes with no questions asked of their contents Each is opened and placed under the microscope Human resource personnel are asked to explain qualifications and selection for jobs Supervisors are asked to estimate the quality of their workers Teachers are observed in classrooms Parents are asked what they hope for when they send their children to school Simultaneously research from a wide range of countries and cultures is explored      *Food and Famine in Colonial Kenya* James Duminy, 2022-10-19 This book offers a genealogical critique of how food scarcity was governed in colonial Kenya With an approach informed by the analysis of government the study accounts for the emergence and persistence of dominant approaches to promoting food security in Kenya and elsewhere in Africa policies and practices that prioritize increased agricultural production as the principal means of achieving food security Drawing on a range of archival sources the book investigates how those tasked with governing

colonial Kenya confronted food as a particular kind of problem It emphasizes the ways in which that problem shifted in conjunction with the emergence and consolidation of the colonial state and economic relations in the territory The book applies a novel conceptual approach to the historical study of African food systems and famine and provides the first longitudinal and in depth analysis of the dynamics of food scarcity and its government in Kenya *The Sound of Silence*
