[A First Time Parent's Survival Guide](#) Clifford Dale James, 2015-10-13 Why don't babies come with a how to manual Wouldn't it be nice to have a pediatrician there with you so you could remember what was said in those well visits and to ask simple questions to Finally a parenting book that is organized around your baby's well visits isn't written like a text book and meant to calm you down rather than scare you about all the very rare possibilities Dr Cliff James is a board certified Pediatrician in private practice for the last 15 years His goal was to write a

book that could both inform and entertain a new parent With the help of his own baby Kaden you get a look at parenting from a pediatrician point of view as well as the mind of a baby toddler evil genius This book covers Choosing a pediatrician Feeding your baby Pee Poop Puke and Snot Vaccines What happens in the hospital Chapters for each well visit Developmental milestones Illnesses Injuries This book is designed to bring a little lightheartedness to parenthood with cartoons jokes and plenty of Dr James own disaster stories as a parent To often we as pediatricians and parents spend too much time emphasizing how much work it is to be a parent and lose sight of the fact children are hilarious and a great source of joy
