## **Moral Controversies In American Politics:**

Moral Controversies in American Politics Raymond Tatalovich, This popular book impartially examines eight hotly contested current political issues in which one or or both sides seeks to use government authority to enforce certain norms of behavior in chapters that are Moral Controversies in American Politics Raymond Tatalovich, Byron W. Daynes, 2005 No area of public policymaking is more hotly debated than the use of government authority to enforce certain standards of behavior in areas of moral controversy Now thoroughly revised and updated this collection examines nine such policy areas ranging from abortion and affirmative action to gay rights including two new chapters on animal rights and hate crimes In discussing each policy area the book examines relevant issues and arguments as well as policy shifts over time It considers the roles of key political and institutional actors in policymaking including lobbies and interest groups the bureaucracy the president Congress the judiciary and state and local authorities Written in an accessible style that is sure to spark classroom discussion each chapter of this new edition includes a list of relevant books web sites and videos for further research

**Moral Controversies in American Politics** Raymond Tatalovich, Byron W. Daynes, Theodore J. Lowi, 2010-10-01 This popular book impartially examines eight hotly contested current political issues in which one or or both sides seeks to use government authority to enforce certain norms of behavior in chapters that are **Social Regulatory Policy** Raymond Tatalovich, Byron W. Daynes, 2019-08-22 In this book the authors propose an important variant of regulation social regulatory policy and explain how the six moral controversies about the policy school prayer pornography crime gun control affirmative action and abortion are handled by the American political system *Social Regulatory Policy* Raymond Tatalovich, Byron W. Daynes, 1988-09-18 **Moral Controversies in American Politics** Raymond Tatalovich, Byron W. Daynes, 1998 No area of public policymaking is more hotly debated than the use of governmental authority to institute certain enforceable standards of behavior in areas that have been the subject of moral controversy Such issues as abortion for example are debated not on grounds of economic calculus but rather the moral and normative concerns of citizens and typically evoke a reversal of the liberal conservative division of views on the appropriateness of government interventionism In Theodore Lowi's words the politics of such issues is more ideological more moral more directly derived from fundamental values more intense less utilitarian more polarized and less prone to compromise This volume examines eight social regulatory policy issues abortion pornography death penalty gun control affirmative action church state separation official English and gay rights Each case study examines the relevant issues and arguments policy shifts over time the roles of key political and institutional actors including lobbies and interest groups public opinion the bureaucracy the president Congress the judiciary and state and local authorities **The Rise and Fall of Moral Conflicts in the United States and Canada** Mildred A. Schwartz, Raymond Tatalovich, 2018-01-01 Using the history of prohibition in North America as a point of reference Schwartz and Tatalovich address the anticipated progression and possible resolution of six contemporary moral issues abortion capital punishment

gun control marijuana pornography and same sex relations      Morality Politics in American Cities Elaine B. Sharp, Yvette M. Alex-Assensoh, 2005 Topless bars casino gambling needle exchange programs for drug addicts there s no question morality issues remain front and center in urban politics Presenting a systematic analysis of culture war issues at the local level Elaine Sharp shows how American cities deal with these ongoing concerns Drawing on a sample of ten strategically chosen cities she explains differences in how municipalities respond to controversies surrounding sex business abortion clinics legalized gambling gay rights and drug use By analyzing the relative importance of subculture economics and institutional arrangements in the disputes she points the way toward richer and more complete understanding of how different cities respond differently to these hot button issues Far more than a statistical study Morality Politics in American Cities is a collection of fascinating stories of real people grappling with down to earth issues and real life drama richly informative case studies that will captivate students and interested citizens alike Mayors public health directors activists and others speak their minds about the pros and cons of these controversies Here are officials in one city confronting the Vatican over funding for abortion services those in another battling a local university over its refusal to provide health benefits to gay partners of faculty members and still others mounting a massive community sponsored attack on topless clubs These stories provide detailed evidence to support classifications needed for comparing cities experience with each of the five morality issues They also corroborate inferences drawn from the comparisons by showing what considerations were in play as local officials grappled with these issues Overall the study shows that cultural factors usually dominate policymaking in local politics except when specific economic interests are at stake and also observes that county level governments are more important than previously thought in terms of morality issue decisions As provocative as it is informative Morality Politics in American Cities demonstrates that such issues same sex marriage for example are multidimensional and often difficult to resolve Its conclusions however contingent mark an important step in the ongoing process of understanding important differences in approaches to these issues and clearly show how moral conflicts continue to define American politics      Legislating Morality in America Donald P. Haider-Markel, 2020-01-07 This title undertakes an impartial authoritative and in depth examination of the moral arguments and ideas behind the laws and policies that govern personal corporate and government behavior in the United States This A Z encyclopedia surveys the moral arguments that provide the foundation for many of the most important and or divisive laws policies and beliefs that govern modern American society The work discusses such controversial and important issues as abortion civil rights drugs and alcohol euthanasia guns hate crimes immigration immunization natural resource use and protection prostitution same sex marriage and workplace laws In the process of surveying historical and current beliefs about appropriate legislative responses to these issues this work will help readers to understand how conservative and liberal conceptions of justice fairness and morality are at the center of so many hot button political and social issues in 21st century America The essays featured in the volume cover wide ranging and controversial topics related

to constitutional and religious freedoms crime and punishment sexuality and reproduction environmental protection and public health national security and civil liberties social welfare programs and education

**The Oxford Handbook of State and Local Government** Donald P. Haider-Markel, 2014-04-03 The Oxford Handbook of State and Local Government is an historic undertaking It contains a wide range of essays that define the important questions in the field evaluate where we are in answering them and set the direction and terms of discourse for future work The Handbook will have a substantial influence in defining the field for years to come The chapters critically assess both the key works of state and local politics literature and the ways in which the sub field has developed It covers the main areas of study in subnational politics by exploring the central contributions to the comparative study of institutions behavior and policy in the American context Each chapter outlines an agenda for future research

**Morality Policies in Europe** Christoph Knill, 2017-07-05 The regulation of issues like abortion euthanasia gun control same sex unions pornography prostitution drugs or gambling is commonly referred to a special class of so called morality policies The distinctive feature of these policies is that politics are shaped by conflicts over first principle When does life end When does it begin Is gambling drug consumption or prostitution inherently malignant The regulation of these value conflicts entails decisions about right or wrong and hence the validation of a particular set of basic values Yet there is still a remarkable lack of scholarly attention on morality policies in particular with regard to general implications for the study of public policy To stimulate further research in this area this book focuses on different concepts and theories of morality policy change in European countries It is based on a broad and comparative empirical perspective on different morality issues including for instance the regulation of prostitution abortion euthanasia gambling drugs as well as gun controls This book was published as a special issue of the Journal of European Public Policy

**Uncompromising Positions** Elizabeth Anne Oldmixon, 2005-12-02 Cultural factions are an intrinsic part of the fabric of American politics But does this mean that there is no room for compromise when groups hold radically different viewpoints on major issues Not necessarily For example in a June 2003 Time CNN poll 49% of respondents identified themselves as pro choice and 46% identified as pro life But in the same poll 81% indicated that abortion should be always legal or sometimes legal suggesting that pro life and pro choice are not discrete positions but allow room for compromise How do legislators legislate policy conflicts that are defined in explicitly cultural terms such as abortion gay marriage and school prayer American political institutions are frequently challenged by the significant conflict between those who embrace religious traditionalism and those who embrace progressive cultural norms Uncompromising Positions God Sex and the U S House of Representatives investigates the politics of that conflict as it is manifested in the proceedings of the U S House of Representatives Oldmixon traces the development of these two distinct cultures in contemporary American politics and discusses the decision making and leadership tactics used by legislators to respond to this division of values She argues that cultural conflict produces an absolutist politics that draws on religious values not amenable to compromise politics One

possible strategy to address the problem is to build bipartisan coalitions Yet interviews with House staffers and House members as well as roll calls all demonstrate that ideologically driven politicians sacrifice compromise and stability to achieve short term political gain Noting polls that show Americans tend to support compromise positions Oldmixon calls on House members to put aside short term political gain take their direction from the example of the American public and focus on finding viable solutions to public policy not zealous ideology *Gambling Politics* Patrick Alan Pierce,Donald E. Miller,2004 Examines the dramatic growth of legal gambling in the United States and the shifting and often contentious politics accompanying its spread *Morality and Moral Controversies* John Arthur,2005 This comprehensive anthology includes classic and contemporary readings in moral theory a wide array of essays that address today s most philosophically interesting and controversial ethical and political issues Includes an ethical theory overview shows relevance of traditional and contemporary writers KEY TOPICS Features articles on self interest and morality rule utilitarianism and the conflict between duty and sentiment Features readings on life and death terrorism internment in time of war distribution of scarce medical resources and the survival lottery Features essays on democracy capitalism and its ethos multiculturalism identity and reparations Extensive coverage of violence terrorism and war as well as relativism and grounds of morality MARKET For those involved in social or political ethical decision making **The Politics of Morality Policy** ,1999 Promise and Performance of American Democracy Jon R. Bond,Richard Abernathy Watson,Kevin B. Smith,2001 This brief but inclusive narrative textbook focuses on the comparison of the theoretical promise of democracy with its actual performance Readily accessible to undergraduates the text is anchored in and motivated by political science scholarship This new edition has been completely revised and updated and incorporates the results of the 2000 presidential and congressional elections With thorough coverage of the successes and failures of the workings of democracy in today s United States PROMISE AND PERFORMANCE OF AMERICAN DEMOCRACY provides students with tools they can use to understand politics evaluate the functioning of democracy and make educated voting decisions Contemporary Readings in American Government Mark J. Rozell,John Kenneth White,2002 KEY BENEFITVery readable and interesting this book provides analyses of contemporary U S government and politics issues One or two substantial essays are devoted to each of the major political topics of the day It is the ideal supplement to any standard American Government book KEY TOPICSThe presidency political parties the media congress the courts foreign policy MARKETFor readers who are interested in an analysis of the major political issues of the day and how these issues affect their lives *Religion and Politics in the United States* Kenneth D. Wald,1992 Religion and Politics in the United States offers a comprehensive account of the role of religious ideas institutions and communities in American public life Publisher **White House Politics and the Environment** Byron W. Daynes,Glen Sussman,2010 Presidents and their administrations since the 1960 s have become increasingly active in environmental politics despite their touted lack of expertise and their apparent frequent discomfort with the issue But how have modern presidents actually

handled the concerns politics posed by environmentalism in all its complexities      The American Presidency and the Social Agenda Byron W. Daynes, Glen Sussman, 2001 Bringing together presidential research and social policy research this book examines six issues that continually evade compromise and resolution abortion pornography gun control affirmative action homosexuality and the environment as they have been addressed by modern day presidents The book is designed to show readers the impact of social policies and how presidents respond to social issues and subsequently build their agendas This book examines the president's roles as opinion party leader legislative leader chief executive commander in Chief and Chief Diplomat as each relates to social issues For individuals interested in the American presidency and public policy
