This concise volume covers ethics issues in the education of dentists, in licensure and licensing examinations, in solo and group private practice, and in esthetic dentistry. It also supplies a chapter presenting the patient's perspective on medical ethics, one on informed consent, and another on the process of developing the guidelines for ethical dental decision making. The topics of billing, office management, and advertising are covered, and the book closes with a chapter entitled *Ethics in Transition*, which charts transitions in a dentist's practice and career, as well as transitions in how ethical principles themselves are viewed. *Ethical Decisions in Dentistry* is a valuable text for teaching ethics in dental schools but also serves as a refresher course for practicing dentists at any stage of their professional lives. *National Board Dental Examination* American Dental
