

NATURE VS NURTURE

An unconditioned stimulus is a type of stimulus that leads to an automatic response. It is the opposite of a conditioned stimulus where the response is learned, rather than automatic.

NATURE

In the context of the nature vs. nurture debate, nature refers to biological heredity and genetic predispositions inherited by individuals from their parents at birth.

This includes physical characteristics such as eye color, facial features, personality traits, and behavioral tendencies.

NURTURE

Nurture, in the context of the nature vs. nurture debate, is used to describe environmental factors that influence an individual's development.

This includes a variety of influences such as parenting style, educational experiences, and cultural background.
