Le Choix Dune Vie:

The Studio, 1902 La pauvreté dans une Afrique en essor Kathleen Beegle, Luc Christiaensen, Andrew Dabalen, Isis Gaddis, 2017-01-31 L'idée que l'on se fait de l'Afrique a radicalement changé. Encore considéré comme le continent des guerres, des famines et de la pauvreté chronique, la fin des années 90 le continent africain est maintenant vu sous l'angle de l'Afrique qui monte et du XXI^e siècle africain. Deux décennies de croissance économique sans précédent devaient en principe améliorer sensiblement le bien-être des populations africaines. Il est toutefois difficile de dire si c'est effectivement le cas en raison de la médiocre qualité des données de la nature du processus de croissance s'agissant notamment du rôle des ressources naturelles, des conflits qui se vivent dans une partie de la région et de la forte expansion démographique. Poverty in a Rising Africa décrit les problèmes de données et analyse systématiquement les informations disponibles sur la pauvreté et les inégalités dans une perspective tant monétaire que non monétaire. Le premier chapitre value la disponibilité et la qualité des données nécessaires pour cerner la pauvreté monétaire, examine les mécanismes de gouvernance et les processus politiques qui sous-tendent la production statistique et propose quelques méthodes pour combler le déficit de données. Le chapitre 2 value la robustesse des estimations sur la pauvreté en Afrique et brosse grands traits le profil de ce fléau. Selon les auteurs, la réduction de la pauvreté en Afrique est peut-être légèrement supérieure à ce que les estimations traditionnelles portent à croire. Pour autant, même les estimations les plus optimistes indiquent que davantage de personnes vivaient dans la pauvreté en 2012 qu'en 1990. Le troisième chapitre considère la pauvreté dans une perspective large en prenant en compte les dimensions non monétaires du bien-être telles que l'éducation, la santé et la liberté en utilisant la méthode d'Amartya Sen (1985) axée sur les notions de capacités et de fonctionnements. Des progrès ont certes été accomplis dans plusieurs de ces domaines, mais les niveaux de résultats restent obstinément bas. Enfin, le chapitre 4 examine les données relatives aux inégalités en Afrique en analysant non seulement les types d'inégalités monétaires, mais aussi d'autres aspects tels que l'inégalité des chances, la mobilité intergénérationnelle dans le travail et l'éducation et l'extrême richesse.

Hermeneutic Rationality Maria Luísa Portocarrero, Luis António Umbelino, Andrzej Wierciński, 2012 The problem of the limits of reason is by no means a privileged subject of an academic discourse. By reducing reality to what can be conceived of within the paradigms of the scientific laboratory, manipulative despotism which positivistic notion of objectivism has established creates in a human being a unilateral conscience of the world and of oneself, a conscience that dominates today our understanding of existence in its manifold senses of Being and the world we live in. This way of thinking based on a powerful and skillful technique aimed at controlling human life in all its dimensions intends to impose this limiting positivistic horizon on human beings in the name of Liberty, Equality and Fraternity. Hermeneutic rationality resists the claims of modern science and promotes the culture of hospitality toward the world as it shows itself in its complexity. Maria Luisa Portocarrero, Universidade de Coimbra, Portugal, Professor of Philosophy, specializing in the phenomenological hermeneutics of Hans Georg Gadamer and Paul Ricoeur. Luis Antonio Umbelino, Universidade de Coimbra.
