Orisma,2020-01-13 Haiti is a failing state The country is still unable to provide basic needs such as employment food housing  
healthcare and education to a majority of its inhabitants in over two centuries after its revolution and Independence of 1804  
Relatively incompetent both the nation's government and its opposition ignore moral politics and instead focus on corruption  
and fighting each other Though free from French rule the country remains tied to its slave past and violent history It seems  
like a socioeconomic and urban consensus cannot be achieved in order to carry out sustainable solutions for the people This  
book *From Revolution to Chaos in Haiti 1804-2019 Urban Problems and Redevelopment Strategies* is an attempt to analyze  
this situation from a historical perspective First the Haitian Revolution of 1804 is displayed to show the violent and bloody  
struggles of outstanding leaders and warriors against colonial powers for the making of a great political and independent  
nation Second Haiti's decline is analyzed starting from the assassination of its first leader Jean Jacques Dessalines in 1806 to  
the country's bottom rank in the global stratification during the 2010s along with the impact of the catastrophic 2010  
earthquake The main factors noted within this decline are linguistic agricultural urban and HIV AIDS TB healthcare issues

and undercapitalization along with ideological confusions capitalism neoliberalism socialism social democracy and political instability
