Work and Employment in the High Performance Workplace Giles Anthony, Jacques Belanger, Paul-Andre Lapointe, Gregor Murray, 2013-10-11 There is a general consensus that deep seated changes are reshaping the way production and work are organized the way employees employers and their representatives deal with each other and the way governments seek to shape society In this work a group of leading scholars take stock of the evidence and implications of the new workplace Drawing on examples from a variety of national contexts they seek to characterize the nature of contemporary workplace change and assess its implications for the organization of work for workers for employment relations and for public policy

The Powers of Sound and Song in Early Modern Paris Nicholas Hammond, 2019-11-11 The long and spectacular reign of Louis XIV of France is typically described in overwhelmingly visual terms In this book Nicholas Hammond takes a sonic approach to this remarkable age opening our ears to the myriad ways in which sound revealed the complex acoustic dimensions of class politics and sexuality in seventeenth century Paris The discovery in the French archives of a four line song from 1661 launched Hammond s research into the lives of the two men referenced therein Jacques Chausson and Guillaume de Guitaut In retracing the lives

of these two men one sentenced to death by burning and the other appointed to the Ordre du Saint Esprit Hammond makes astonishing discoveries about each man and the ways in which their lives intersected all in the context of the sounds and songs heard in the court of Louis XIV and on the streets and bridges of Paris Hammond's study shows how members of the elite and lower classes in Paris crossed paths in unexpected ways and moreover how noise in the ancien régime was central to questions of crime and punishment street singing was considered a crime in itself and yet street singers flourished circulating information about crimes that others may have committed while political and religious authorities wielded the powerful sounds of sermons and public executions to provide moral commentaries to control crime and to inflict punishment This innovative study explores the theoretical social cultural and historical contexts of the early modern Parisian soundscape It will appeal to scholars interested in sound studies and the history of sexuality as well as those who study the culture literature and history of early modern France Bulletin of the Public Library of the City of Boston Boston Public Library, 1875 *Variability of Performance in the Curve of Work* James Davis Weinland, 1927 Adam & Eve and the City Francine du Plessix Gray, 1987 **Folklore**, 1985 *City Blocks, City Spaces* L.
