

Mathenatics Plimpopodoe 2014

Piotr Romanowski, Martin Guardado

Mathenatics Plimpopodoe 2014:

Rural Education Across the World Simone White, Jayne Downey, 2021-03-22 This book brings together authors from United States South Africa United Kingdom China Canada and Australia to provide insights and case studies from across a range of contexts to explore the interplay between the notions of rurality innovation and education The book reveals a hopeful and resilient approach to innovative rural education and scholarship collectively and provides important evidence to speak against an often deficit view of rural education Three patterns are revealed namely the importance of place attentive strategies the importance of joined up alliances to maximise resources and networks and finally the need to utilize alternative methodologies and frameworks that have a starting point of difference rather than deficit for any rural initiative or approach By drawing from international examples and responding in innovative ways to rural education challenges this book provides an opportunity to share international insights into innovations interventions and partnerships that promote and support rural education in its broadest sense

Legal pedagogy, practice and curriculum transformation: What does the future hold and look like? Charles Maimela ,2025-07-18 In an era marked by rapid technological innovation and complex socio political shifts legal education stands at a critical crossroads This timely publication explores the imperative for a curriculum that is both responsive and resilient capable of adapting to the evolving needs of students institutions and society at large Blending theoretical analysis with practical insight the book offers forwardthinking strategies to navigate the multifaceted challenges of curriculum transformation Drawing on the lived experiences and reflections of law educators across diverse institutions it provides a unique lens into how curriculum innovation can enhance teaching learning and research in the legal academy More than a commentary this book is a call to action a vital resource for educators academic leaders and policymakers committed to ensuring the continued relevance excellence and social responsiveness of legal education in the 21st century

The Many Faces of Multilingualism Piotr Romanowski, Martin Guardado, 2020-10-12 Multilingualism has become an increasingly common global phenomenon especially in the last two decades Therefore multilingual programmes have now been regarded as a cornerstone of education systems in many countries around the world Learning multiple languages helps us plug into a globalised world and strengthen links with a multitude of speakers from a diversified reality we live in Thanks to the researched cases described in the chapters further developments aimed at fostering multilingual practices in the contemporary world will be enhanced The chapters included in the present volume provide an overview of current theory research and practice in the field They deal with such prominent research topics as multilingual education language policies language contact identity of multilingual speakers to name only a few The selected chapters focus on the numerous and heterogeneous relations between languages They also incorporate a series of contextualized studies with diverse research designs applied in different settings across the globe This volume constitutes a pivotal reference source for the latest scholarly material on multilingualism from twelve different countries It is a thought provoking collection that

provides a series of rich insights into the way multilingualism is practised in international contexts It is ideally designed for academics upper level students educators professionals and practitioners seeking linguistic and pedagogical guidance on multilingualism Developing Teaching and Learning in Africa Vuyisile Msila,2020-09-08 Developing Teaching and Learning in Africa is a collection of chapters that carry on the topical discussions on indigenous knowledges and western epistemologies African societies still aspire towards knowledge that is liberatory enhance critical thinking and decentre Eurocentrism The contributors explore these decolonial debates as they navigate ways of moving towards epistemic freedom and cognitive justice **South African Schooling: The Enigma of Inequality** Nic Spaull,Jonathan D. Jansen,2019-11-05 This volume brings together many of South Africa s leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90 10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case that the life chances of most South African children are determined not by their ability or the result of hard work and determination but instead by the colour of their skin the province of their birth and the wealth of their parents Looking back on almost three decades of democracy in South Africa it is this stubbornness of inequality and its patterns of persistence that demands explanation justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people s future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI **Inclusive Education in South African Further and Higher Education** Tsedisio Michael Makoelle,Cina P. Mosito,2025-05-26 A historical overview of the evolution of inclusive education alongside the emergence of concepts such as of equity and access highlighting how these ideas have evolved been enacted and practiced in

the higher education institutions HEIs of South Africa since 2001 Using African Epistemologies in Shaping Inclusive Education Knowledge Mbulaheni Obert Maguvhe, Mfundo Mandla Masuku, 2023-07-13 This book thus explores the role of African epistemologies in addressing the myriad challenges posed by the inclusive education system in Africa and other contexts In recent years the shift from special education to inclusive education has had a significant impact on the provision of education and the education system as a whole in Africa The impact has been felt in all institutions of learning from low to high public and private government and across departments of education Inclusive education if shaped correctly by using African epistemologies would empower learners to attain the relevant skills knowledge values and attitudes for their own intellectual growth and personal development **Mathematics and Mathematical Literacy** South Africa. Department of Education, 2007 **Meisies en Wiskunde** Transvaal (South Africa). Education Department. Study Committee for Mathematics, 1987*
