Assessing Academic Literacy in a Multilingual Society Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience.

The Encyclopedia of Middle Grades Education (2nd ed.) Steven B. Mertens, Micki M. Caskey, Nancy Flowers, 2016-08-01 The second edition of The Encyclopedia of Middle Grades Education has been revised, updated, and expanded since its original publication in 2005. The Encyclopedia is a comprehensive overview of the field; it contains alphabetically organized entries that address important concepts, ideas, terms, people, organizations, publications, and research studies specifically related to middle grades education. This edition contains over 210 entries from nearly 160 expert contributors; this is a 25% increase in the number of entries over the first edition. The Encyclopedia is aimed at a general audience including undergraduate students in middle level teacher preparation programs, graduate students, higher education faculty, and practitioners and administrators. The comprehensive list of entries are comprised of both short entries (500 words) and longer entries (2000 words). A significant number of entries appearing in the first edition have been revised and updated. Citations and references are provided for each entry.

Neoliberalism Economic Policy and the Collapse of the Public Sector Lionel D. Lyles PhD., 2018-07-13 My book demonstrates how classical liberalism was the foundation upon which Thomas Jefferson, George Washington, Alexander Hamilton, and others wrote the Declaration of Independence, Constitution, and the Bills of Rights; however, it was rolled back by 1980 and replaced with neoliberalism, which was championed by the Reagan Administration. In short, this ideology has one main aim, and that is to shrink government, cut the budgets of social programs, and give away billions of taxpayer dollars to private business in the form of tax breaks. During the Jindal administration, and by the end of its first term, more than 7 billion worth of tax breaks had been given away to private business. A surplus of 1 billion left in the Louisiana treasury by outgoing governor Kathleen Blanco after Hurricane Katrina was given away by the end of the first two months of its first term. Today, the Louisiana legislature is currently facing a 650 million fiscal cliff, and no doubt more budget cuts are in store for the Louisiana public sector.

Get Out Now Mary Rice Hasson, Theresa Farnan, 2018-08-14 Should we stay or should we go? Millions of parents with children in public schools can't believe they're asking this question. But they are. And you should be asking it too. Almost overnight,
