**Thinking and Acting Systemically** Alan Daly, Kara Finnigan, 2016-05-19 This volume argues that districts are important as a lever for change given the limited success of school by school efforts Policies that focus on skill development recognize and support performance create opportunities for collaboration build leader capacity and create networks of knowledge sharing hold great potential for improving districts but it will require a paradigm shift in the way we view our public school system and those who work within it away from blame and toward complex systems change

**An Age of Accountability** John L. Rury, 2023-10-13 An Age of Accountability highlights the role of test based accountability as a policy framework in

American education from 1970 to 2020 For more than half a century the quest to hold schools and educators accountable for academic achievement has relied almost exclusively on standardized assessment The theory of change embedded in almost all test based accountability programs held that assessment with stipulated consequences could lead to major improvements in schools This was accomplished politically by proclaiming lofty goals of attaining universal proficiency and closing achievement gaps which repeatedly failed to materialize But even after very clear disappointments no other policy framework has emerged to challenge its hegemony The American public today has little confidence in institutions to improve the quality of goods and services they provide especially in the public sector As a consequence many Americans continue to believe that accountability remains a vital necessity even if educators and policy scholars disagree

**Gender Gaps and the Social Inclusion Movement in ICT** Williams, Idongesit, Millward, Olga, Layton, Roslyn, 2018-12-14 Despite advancements in technological and engineering fields there is still a digital gender divide in the adoption use and development of information communication technology ICT services This divide is also evident in educational environments and careers specifically in the STEM fields In order to mitigate this divide policy approaches must be addressed and improved in order to encourage the inclusion of women in ICT disciplines Gender Gaps and the Social Inclusion Movement in ICT provides emerging research exploring the theoretical and practical aspects of gender and policy from developed and developing country perspectives and its applications within ICT through various forms of research including case studies Featuring coverage on a broad range of topics such as digital identity human rights and social inclusion this book is ideally designed for policymakers academicians researchers students and technology developers seeking current research on gender inequality in ICT environments
