Libguide Finding Company Information:

Research within the Disciplines Peggy Keeran, Michael Levine-Clark, 2014-04-28 Research within the Disciplines is designed to help reference librarians and students studying to become librarians gain that deeper understanding of disciplinary differences that allows them to comfortably solve information needs rather than merely responding to questions and practical knowledge about how to work with researchers in a library setting The book has three chapters that cover the disciplines at the broadest level humanities social sciences and sciences plus supplemental chapters that focus on associated disciplines research in history business and engineering research using government sources and across disciplines interdisciplinary and critical information literacy For the second edition of Research within the Disciplines several chapters have been added that together give a broader and deeper overview of research across all subject areas research practices of creative and performing artists and of clinical scientists research in international documents research strategies for foreign language materials and visual literacy across the disciplines Major shifts in technology have been accounted for that have changed how we do research and have expanded the range of resources available to researchers in all disciplines All of the chapters have been rewritten or heavily revised this is much more a new book than a new edition **Information Literacy**

Instruction that Works Patrick Ragains, 2013-06-27 Information literacy and library instruction are at the heart of the academic library's mission But how do you bring that instruction to an increasingly diverse student body and an increasingly varied spectrum of majors In this updated expanded new second edition featuring more than 75% new content Ragains and 16 other library instructors share their best practices for reaching out to today's unique users Readers will find strategies and techniques for teaching college and university freshmen community college students students with disabilities and those in distance learning programs Alongside sample lesson plans presentations brochures worksheets handouts and evaluation forms Ragains and his contributors offer proven approaches to teaching students in the most popular programs of study including English Literature Art and Art History Film Studies History Psychology Science Agricultural Sciences and Natural Resources Hospitality Business Music Anthropology Engineering Coverage of additional special topics including legal information for non law students government information and patent searching make this a complete guide to information literacy instruction Using LibGuides to Enhance Library Services Aaron W. Dobbs, Ryan L. Sittler, Douglas

Cook, 2013-01-04 The easy to use tools in Springshare's LibGuides help you organize webpages improve students research experience and learning and offer an online community of librarians sharing their work and ideas Editors Dobbs Sittler and Cook have recruited expert contributors to address specific applications creating a one stop reference Readers will be able to create subject guides that achieve the full potential of LibGuides with advice on such topics as Learning from the best a showcase of 28 LibGuides with exceptional design and pedagogy Collaborating with faculty to embed LibGuides in course management systems Creating a customized look to your LibGuides with design flair and enhanced functionality Getting

ready for smart phone users with a plan for the mobile web Setting up Google Analytics on a LibGuide site Teaching with LibGuides *Librarian's Guide to Online Searching* Christopher C. Brown,Suzanne S. Bell,2018-07-20 Understanding and navigating online databases is an essential skill for today s librarians but staying current in this changing landscape can be a challenge The fifth edition of this vital book ensures that you meet that challenge Today s librarians not only need to know about existing databases and how to perform searches within them but must also be able to teach search capabilities and strategies to library users This practical guide introduces librarians to a broad spectrum of the fee based and freely available databases that are available some of which are new to this edition and explains their underlying information structures as well as updates to some standard databases In addition it covers search strategies provides criteria for evaluating databases and discusses how to teach others about databases As in the previous edition this book takes a real world approach covering everything from basic and advanced search tools to online subject databases Each chapter includes a thorough discussion recap concrete examples exercises and points to consider making this an ideal text for courses in database searching as well as a trustworthy professional resource Conducting Undergraduate Research in Education Ruth J. Palmer,Deborah L. Myra Shulman, 2006 Native and nonnative speakers who need a concise guide to academic writing will appreciate this useful book. *In Focus Strategies for Academic Writers* covers a wide variety of common academic writing tasks including paragraphs, summaries, short essays, critical reviews, synthesis papers, argumentative papers, research papers, and impromptu response writing. This textbook incorporates the process approach to writing and presents strategies for every aspect of the pre-writing and writing process. The Focus Approach helps students analyze the writing task at hand and clarify the goals of their projects, while the Power Writing Process allows students to complete the writing and revision of their assignments one step at a time. The textbook also addresses the problem of writer's block and provides techniques to help students cope with anxiety associated with writing. This is the first book in a two-book IN FOCUS writing series. Myra Shulman is faculty at Georgetown University.
