had been one of the major facts in European history since the Middle Ages Stretching from the Adriatic to the Indian Ocean the Empire was both a great political entity and a religious one with the Sultan ruling over the Holy Sites and as Caliph the successor to Mohammed Yet the Empire s fateful decision to support Germany and Austria Hungary in 1914 doomed it to disaster breaking it up into a series of European colonies and what emerged as an independent Saudi Arabia Ryan Gingeras s superb new book explains how these epochal events came about and shows how much we still live in the shadow of decisions taken so long ago Would all of the Empire fall to marauding Allied armies or could something be saved In such an ethnically and religiously entangled region what would be the price paid to create a cohesive and independent new state The story of the creation of modern Turkey is an extraordinary bitter epic brilliantly told here **Hagia Sophia in the Long**

This is a companion version not the original book Sample Book Insights 1 The Ottoman Empire was in decline by the time the PERA Palace was founded The Eastern Question a conglomeration of territorial disputes nationalist movements and international standoffs had roiled the empire for decades 2 In 1908 the Ottoman Empire was forced to accept a constitutional monarchy and restore the imperial parliament The Unionists were a new generation of Ottoman officers who were painfully aware of the gulf between their own empire and the great powers 3 In 1909 a counter coup attempted to undo the constitutional changes but the Unionists struck back sending military units marching on Istanbul to defend the reforms In 1912 and 1913 two wars in the Balkans led to the independence of Albania the loss of Macedonia and Crete and the almost complete withdrawal of Ottoman power from continental Europe 4 The Ottomans were quick to join the war as they were promised territory and freedom from the sultan s control if they won The war quickly became a struggle for survival for the Ottomans as the potential costs were clear the end of the Ottoman Empire the dismemberment of the state and perhaps even the loss of the imperial capital itself **Minuit au Pera Palace** Charles King,2017-09-20 L ultime murmure de l Occident sur la voie de l Orient En 1892 le Pera Palace Istanbul fut le premier h tel de luxe destin aux voyageurs occidentaux mont s

later the economic hub of Turkey made Istanbul a forum for the different regimes to display their political ideological and social policies in the context of the built environment Some modernisation policies never came to fruition such as the unsuccessful late nineteenth century attempt by young Ottoman bureaucrats to initiate planning reforms at a time when the Empire was on the verge of collapse The new Turkish Republic at first neglected the old Ottoman capital and later attempted to make it conform to its secular political ideology After World War II Istanbul entered a new era in modernisation with the Democratic Party government conducting a large scale re design of Istanbul s urban form in order to show Turkey as a major political and economic force in post war Europe and the Middle East The scale of this modernisation process mirrored the spectacular transformation of Paris a century before thousands of buildings were demolished boulevards were carved out within the old city and whole new residential neighbourhoods were created In telling the story of this dramatic transformation Murat G l investigates and traces the impact of these changing policies on the very fabric of the city itself in its streets buildings and landscapes and in the process provides new insights into the history of Turkey
