Investopedia Series 7 Study Guide:

Law and the Political Economy of Hunger Anna Chadwick, 2019-01-31 This book is an inquiry into the role of law in the contemporary political economy of hunger. In the work of many international institutions, governments, and NGOs, law is represented as a solution to the persistence of hunger. This presentation is evident in the efforts to realize a human right to adequate food as well as in the positioning of law in the form of regulation as a tool to protect society from unruly markets. In this monograph, Anna Chadwick draws on theoretical work from a range of disciplines to challenge accounts that portray law's role in the context of hunger as exclusively remedial. The book takes as its starting point claims that financial traders caused the 2007-8 global food crisis by speculating in financial instruments linked to the prices of staple grains. The introduction of new regulations to curb the excesses of the financial sector in order to protect the food insecure reinforces the dominant perception that law can solve the problem. Chadwick investigates a number of different legal regimes spanning public international law, international economic law, transnational governance, private law, and human rights law to gather evidence for a counterclaim: law is part of the problem. The character of the contemporary global food system, a food system that is being progressively financialized, owes everything to law. If world hunger is to be eradicated, Chadwick argues, then greater attention needs to be paid to how different legal regimes operate to consistently privilege the interests of the wealthy few over the needs of poor and the hungry.

An Introduction to Stocks, Trading Markets and Corporate Behavior Clifford D Wright, 2015-03-07

Management and Leadership in the Medical Laboratory - E-Book Connie R. Mahon, Carol A. Rentas, 2025-11-07 Prepare for a leadership role in the clinical laboratory. Management and Leadership in the Clinical Laboratory provides a comprehensive problem-based approach to understanding essential management and leadership concepts tailored for healthcare organizations and clinical laboratories. Each chapter begins with a real-world case in point, guiding you through critical topics such as healthcare finance, quality assurance, and regulatory issues, laboratory safety, personnel management, and team dynamics, ensuring that current and future laboratory leaders are well-equipped to navigate the complexities of their roles. Management and leadership concepts are presented through the lens of healthcare organizations and medical laboratories. Management practices explored include principles in operations management, healthcare finance, and managing budgets, regulation and compliance, human resource management, and method validation. Leadership topics include managing and leading a diverse workforce, self and external awareness, leading teams, and developing others. Learning objectives highlight management and leadership competencies. Problem-based approach in each chapter introduces the topic with a case in point, followed by a list of discussion points for you to consider as you navigate the chapter content. Self-assessment tools follow up learning activities, and tips for managers and supervisors provide additional content and opportunities for further engagement. Personal reflection and application exercises at the end of each chapter reinforce comprehension and retention of key concepts.
