### Macros Explained

One of the powerful features of inVoca is its ability to utilize "macros." A macro is simply a sequence of commands triggered by a single button push or spoken word. A simple macro might be "TV" followed by "TV" followed by "Power" (for turning your TV's volume to a macro to a single command such as "100%" or "Maximum.")

A more complex macro would allow you to play a VCR tape. To do this the old-fashioned way you would need to press "TV" then "Power" then "TV" then "V" then "VCR" then "power" then "play." A macro would allow you to do all this with a single spoken command such as "play tape." Isn't that easier? "Multiple-Song Macro," explained on page 24, permits you to do such things as set/advance/delete four channels with a single command! — very handy for watching New Year's Day football!
