The Wales Office and the Welsh Assembly Government must ensure UK digital inclusion initiatives meet Welsh needs and build on existing good work to deliver on Welsh digital ambitions says the Welsh Affairs Committee in a report published today This report Digital Inclusion in Wales examines the use of digital technologies in Wales highlights the urgent need for the eradication of broadband notspots areas with limited or no access to high speed internet connections and says this issue must continue to receive priority attention There should be more support to help a wider range of people use technology effectively Employers told the Committee they need staff with better IT skills and more training opportunities The Committee recommends the Welsh Assembly Government explicitly includes this issue in its digital inclusion strategy The digital inclusion agenda is a complex mix of reserved and devolved matters This brings a risk that key issues can be overlooked for example no account has been taken of Welsh language speakers needs in the Government's Digital Inclusion Action Plan The

Secretary of State for Wales must ensure that bodies in Wales across all sectors are fully engaged with initiatives and that the next stage of Digital Britain adequately reflects Welsh needs Higher education institutions also have a vital role to play and should be involved in any new research opportunities The Welsh Assembly already has successful digital inclusion projects in Wales and it should find a way to become fully involved with the UK digital inclusion and Digital Britain work so it does not miss out on policy developments and funding opportunities The Committee also recommends the creation of a one stop shop providing advice on the risks for young people using technology and commends the Assembly's work tackling internet related crimes which it says should be promoted as part of the economic development strategy in Wales *HWM*,2005-12 Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in depth reviews *HWM*,2005-10 Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in depth reviews **PC World**,2009 iPod and iTunes QuickSteps Eliot Van Buskirk,John Alderman,2005-10-25 The best selling full color QuickSteps series now covers the world's favorite MP3 player Users will learn to get up and running with the iPod and iTunes download and play music use the iPod's calendar to do list contacts and notes functions edit and display photos play games and use the iPod as an external hard drive The Wall Street Journal,2009 *PC Magazine*,2008 **Finweek**,2006 *Macworld*,2007-07 **Business World**,2009 A Newbies Guide to iPod Shuffle Minute Help Guides,Minute Help Guides Staff,2013-05-17 After opening the box you will quickly see that iPod comes with everything you need to create your ultimate music experience except instructions If you want to get the most out of your iPod then let Minute Help show you how with this guide book full of tips tricks and hints
