

MARK SCHEME for the October/November 2013 series

4024 MATHEMATICS (SYLLABUS D)

4024/22

Paper 2, maximum raw mark 100

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2013 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

Economic Integration in Africa Richard E. Mshomba, 2017-10-12 In this work Richard E Mshomba offers an in depth analysis of economic integration in Africa with a focus on the East African Community EAC arguably the most ambitious of all the regional economic blocs currently in existence in Africa Economic Integration in Africa provides more than just an overview of regional economic blocs in Africa it also offers a rich historical discussion on the birth and death of the first EAC starting with the onset of colonialism in the 1890s and a systematic analysis of the birth growth and aspirations of the current EAC Those objectives include forming a monetary union and eventually an East African political federation This book also examines the African Union s aspirations for continent wide integration as envisioned by the Abuja Treaty Mshomba carefully argues that maturity of democracy and good governance in each country are prerequisites for the formation of a viable and sustainable East African federation and genuine continent wide integration

Why States Recover Greg Mills, 2014 State failure takes many forms Somalia offers one extreme A collapse of central authority as the outcome of a prolonged civil war where authority descends into competing factions warlords around the spoils of local commerce power and international aid At the other end of the scale is Malawi under President Bingu During his abbreviated second term in office the country s economy collapsed as a result of poor policies and personalised politics On the surface save the petrol queues it was stable underneath the polity was fractured and the economy broken Between these two extremes of state failure are all manner of examples This book uses field work based case studies of more than thirty countries incorporating interviews with a dozen leaders to disaggregate various state failures and identify instances of recovery from Latin America Asia and Africa including Afghanistan Congo Sierra Leone Kosovo Somalia and Somaliland Venezuela and Zimbabwe while focusing on a key question How do countries recover and what roles are there for insiders and outsiders
