Protestant alike and the growth of indigenous revitalization movements This study analyzes these major transitions asking what roles ethnicity and ethnic identities play in the contemporary process of religious pluralism such as the growth of the Protestant Pentecostal and neo Pentecostal movements the Catholic Charismatic Renewal and the indigenous Maya movement in Guatemala This book aims to provide an understanding of the agenda of religious movements their motivations and their impact on society Such a pursuit is urgently needed in Guatemala a postwar country experiencing acrimonious religious competition and a highly contentious debate on religious pluralism This volume is relevant to scholars and students of Latin American Studies Sociology of Religion Anthropology Practical Theology and Political Sciences *Understanding Open-Vent Volcanism and Related Hazards* William Ingersoll Rose, José Luis Palma, Hugo Delgado-Granados, Nick Varley, 2013 Special Paper 498 contains 12 new scientific papers assembled as part of an NSF sponsored workshop in 2011 The work highlights study of persistently active volcanoes and their hazards mostly in Central America Such volcanoes are termed open vents by volcanologists and they offer the chance to study active processes Insight into how volcanoes work and how hazards might be mitigated are the goals of the work Overall the volume presents insight into hazards infrastructure collaborations and development for geoscientists and students

**Nutrition·Immunity·Longevity** Dr. Jau-Fei Chen, 2016-09-28 Nutrition aside there are other interesting topics worth exploring in the pursuit of health Can cancer be prevented Why doesn't everyone live long healthy lives What is the relationship between cardiovascular disease and the immune system How does the immune system affect overall health Which is a healthier food option natural and wholesome plant foods or animal based foods How do our lifestyles affect our health Good health is not a secret To achieve good health we must first understand it By drawing links between diet health and the immune system this book provides fascinating insights into the preventive science of Nutritional Immunology

**Visualising Skyscapes** Liz Henty, Daniel Brown, 2019-08-19 Above the land and its horizon lies the celestial sphere that great dome of the sky which governs light and darkness critical to life itself yet its influence is often neglected in the archaeological narrative Visualising Skyscapes captures a growing interest in the emerging field of skyscape archaeology This powerful and innovative book returns the sky to its rightful place as a central consideration in archaeological thought and can be regarded as a handbook for further research Bookended by a foreword by archaeologist Gabriel Cooney and an afterword by astronomer Andrew Newsam its contents have a wide reaching relevance for the fields of archaeology anthropology ethnography archaeoastronomy astronomy heritage and cultural studies The volume balances six chapters on theory and methodology which elaborate on the history and practice of the field with six other chapters focused on case studies from around the world Visualising Skyscapes captures the growing interest in the multidisciplinary study of skylscapes and will be of interest to academics students and the general public as well as having international appeal It is topical timely and relevant to current debates and will hopefully stimulate further interest in this exciting and relatively new area of investigation The contributions showcase the work of

distinguished academics in the field and the chapters are all enhanced by numerous photographs and images **BONES OF MAYA** Stephen L. Whittington, David M. Reed, 1997-03-17 In the ninth century southern lowland Maya civilization went into a mysterious decline Despite the wealth of information that bones could potentially provide towards explaining the collapse bioarchaeologists have been traditionally unable to study Maya bones because the tropical climate and uninformed excavations have resulted in decomposed poorly collected samples But during the last twenty years new techniques in osteology have yielded finds on Maya diet and health that challenge the accepted ecological model of overpopulation and overcultivation leading to collapse Fifteen essays on skeletons from a wide range of sites in Mexico and Central America address such subjects as cranial deformation tooth filing damage caused by sacrificial rites and evidence of nutritional and infectious diseases What emerges is a picture of regional variation and the importance of local context in order to reconstruct ancient Maya culture and explain its demise **Cartographic Grounds** Charles Waldheim, Jil Desimini, 2016-06-28 Mapping

has been one of the most fertile areas of exploration for architecture and landscape in the past few decades While documenting this shift in representation from the material and physical description toward the depiction of the unseen and often immaterial *Cartographic Grounds* takes a critical view toward the current use of data mapping and visualization and calls for a return to traditional cartographic techniques to reimagine the manifestation and manipulation of the ground itself Each of the ten chapters focuses on a single cartographic technique sounding spot elevation isobath contour hachure hatch shaded relief land classification figure ground stratigraphic column cross section line symbol conventional sign and illustrates it through beautiful maps and plans from notable designers and cartographers throughout history from Leonardo da Vinci to James Corner Field Operations Mohsen Mostafavi dean of the Harvard Graduate School of Design introduces the book **The Language of Money** Annabelle Mooney, 2018-04-27 Through a detailed examination of proverbs related to money this book offers a comprehensive critique of the prevailing everyday ideologies and discourses on money and paves the way toward establishing a new set of proverbs more conducive to financial equality and human well being The volume explores a variety of contexts to demonstrate the different aspects of the money system and the linguistic and social structures embedded within them including pay day loan websites gambling get rich self help books and new forms of currency Unpacking this complex relationship between people money and language in contemporary society this book is an ideal resource for students and scholars in language and communication sociolinguistics rhetoric sociology and media studies
