

Narrative Essay

A narrative essay tells a story by relating its events in an organized manner so that it proves a point.

Narratives in College Writing

Narratives Prove a Point

College writing uses narratives to prove a point by telling an event in logical order. For example, in a narrative essay about a camping trip, the purpose may be to show how camping can turn into a disastrous event.

Do Not Just Tell the Story

Instead of just telling the story, choose the details and organize the specific events of the story so that they will support the thesis. For the above example, select the particular details from the trip that show why camping can turn out disastrously.

Types of Narrative Organization

Chronological Order

A narrative may present events in the exact order in which they took place. Chronological order moves from the beginning to the end, from first to last.

Begin with the Middle or End

In writing fiction or a personal account, a narrative may begin with the middle or end of the story for variety. Then, the events that led up to that particular point in the story may be presented.

Flashbacks

A narrative may also begin with the present and use a series of flashbacks, which interrupt the present in order to tell about past occurrences or events, to tell the story.

Make the Narrative Interesting

Use Detail

The reader needs to see what is being discussed in the paper, so use vivid details, like imagery, and give specific information, such as the time of day, precise dates, and exact locations.

Vary Sentences

Be careful not to begin every sentence the same way. Also, avoid using sentences that use the same pattern; instead, use a variety of sentence structures.

Instead of: We woke up in the middle of the night. We found our campsite flooded. We packed up our belongings and moved.

Try: In the middle of the night, we awoke from a deep sleep to find our campsite flooded with water. We were forced, unfortunately, to pack up our belongings and move upstream as quickly as possible.

Use Dialogue

Dialogue is useful to help develop characters and to make the narrative more interesting. A reader would rather hear specific people speak than read about them.

Narrative Essay Samples For College:

Becoming a College Writer Adam Karnes, Laura Scott, 2023-08-01 *Becoming a College Writer* is an encouraging new writing textbook that places the power of activity and discussion based classroom practices into the hands of students. Based on real writing instruction from real college faculty, this book blends a friendly, accessible voice with hands-on activities in the form of annotated example papers, helpful and simple writing exercises, practical guides for essential writing skills, the writing process, essay structure, paragraph and sentence structure, solutions to common problems. These lessons address the necessary skill sets college writers must wield not as masters but as growing writers in a variety of contexts. Built by experienced teaching faculty who work with students at all levels of readiness for college writing, this textbook focuses on providing detailed accounts of the most helpful feedback their students have identified from their assignments. The result is an extremely useful and balanced approach to helping students reach their maximum potential as a writer all without bogging them down with too much information. Each lesson is further illustrated by diagrammed examples of what good writing looks like. These examples are formed by showing a typical but problematic example that struggling students might write first, followed by step-by-step instructions to improve that writing in the moment, simultaneously teaching the skills needed to do it the improved way in the future. Finally, a value-packed appendix provides exercises in revision and proofreading, demystifying these processes that so many students forego in order to turn their hurried assignments in on time. *Becoming a College Writer* gives students a reason to slow down, look twice, and hone their writing, perhaps the most important step of the writing process.

How to Write a Winning College Application Essay Michael James Mason, 1991
Seniors in high school start feeling stressed at the mere thought of writing the college application essay. They well know the role this crucial document plays in getting into their university of choice. What they may not know is that there is a right way and a wrong way to writing the essay. I've noticed some recurrent bad habits that have hurt otherwise good essays, and I have added mention of them throughout the book, says Michael James Mason, author of *How to Write a Winning College Application Essay*. A student doesn't have to be a star scholar or a superhero to write a great application essay. They just have to show on paper that they know some things about themselves and that life has meaning and perspective. In *How to Write a Winning College Application Essay*, Mason teaches students how to put their best image on paper while letting the essay speak from their heart about what life means to them. Since the publication of the first two editions of his practical manual, thousands of students across the nation have used his techniques in the process of writing their personal statements for college and graduate school. Thousands of good students have been accepted into colleges of their choice because their essays were honest, moving, and sensitive. Their essays revealed their values, insights, and spirit, says Mason. About the Author: Michael James Mason has helped thousands of students at his College Essay Workshops and in previous editions of this book. In writing the third edition to this popular book, he looked to the experiences of real students and admissions officials, the
