## **Language in Writing**

**Instruction** María Estela Brisk, 2020-09-22 Accessible and engaging this book offers a comfortable entry point to integrating language instruction in writing units in grades 3-8. A full understanding of language development is necessary for teaching writing in a successful and meaningful way. Applying a Systemic Functional Linguistics (SFL) approach, María Estela Brisk embraces an educator's perspective, breaks down the challenges of teaching language for non-linguists, and demonstrates how teachers can help students express their ideas and create cohesive texts. With a focus on the needs of all students, including bilingual and English language learners, Brisk addresses topics necessary for successful language instruction and moves beyond vocabulary and grammar to address meaning-making and genre. This book provides a wealth of tools and examples for practice and includes helpful instructional resources that teachers can return to time after time. Moving from theory to practice, this teacher-friendly text is a vital resource for courses in language education programs, in-service teacher training seminars, and for pre-service and practicing English Language Arts (ELA) teachers who want to expand their teaching abilities and knowledge bases. This book features a sample unit and a reference list of instructional resources.

## **Teaching to**

**Change the World** Jeannie Oakes, Martin Lipton, Lauren Anderson, Jamy Stillman, 2018-01-29 Teaching to Change the World is an up-to-the-moment, engaging social justice-oriented introduction to education and teaching and the challenges and opportunities they present. Both foundational and practical, the chapters are organized around conventional topics but in a way that consistently integrates a coherent story that explains why schools are as they are. Taking the position that a hopeful democratic future depends on ensuring that all students learn, the text pays particular attention to inequalities associated with race, social class, language, gender, and other social categories, and explores teachers' role in addressing them. This thoroughly revised fifth edition remains a vital introduction to the profession for a new generation of teachers who seek to become purposeful, knowledgeable practitioners in our ever-changing educational landscape. For those teachers who see the potential for education to change the world, Features and Updates of the New Edition: Fully updated Chapter 1, "The U.S. Schooling Dilemma," reflects our current state of education after the 2016 U.S. presidential election. First-person observations from teachers, including first-year teachers, continue to offer vivid, authentic pictures of what teaching to change the world means and involves. Additional coverage of the ongoing effects of Common Core highlights the heated public discourse around teaching and teachers and charter schools. Attention to diversity and inclusion is treated as integral to all chapters, woven throughout rather than tacked on as separate units. Digging Deeper: resources on the new companion website include concrete resources that current and future teachers can use in their classrooms. Tools for Critique: provides instructors and students questions, prompts, and activities aimed at encouraging classroom discussion and particularly engaging those students least familiar with the central tenets of social justice education.
