Early Childhood Curriculum Sue Clark Wortham, 2010 Appropriate for undergraduate courses on curriculum methods in early childhood and primary grade education This textbook uses current interpretations and applications of classic theories as a basis for understanding how to develop early childhood curriculum and instruction for children ages 0 8 The author stresses the need for readers to understand the foundations of their programs prior to developing and using quality curriculum and teaching With its chronological approach from infancy through Grade 3 this text directly ties curriculum to the understanding of child development

Pathways With Purpose Sarah J. Royer, 2018-08-21 When I started thinking about building a Faith based curriculum for the early childhood classroom my goal was to create a curriculum that would catch the interest of children 0 Kindergarten See I have worked in the early childhood classroom for almost two decades and while the goal is at the heart of the curriculum I have used the interest it has sparked in our young ones is mild and dulled down at best How can we best instill an excitement to learn in our young ones By making the material and manipulatives hands on and exciting I don t mean by reading a story and pulling out paper puppets on craft sticks although this may be what some children like and want to explore What I mean is presenting values and morals in an explorative manner in conjunction with developmentally appropriate learning standards that help engage your students in learning experiences while getting them excited Including stories and sensory materials story buckets role playing with dress up materials including a variety of mixed media to spark your student s interests is absolutely necessary Create an environment that appeals to learners of various ages backgrounds and learning styles Make your lesson times fun and interesting and your learners will gravitate back for more

Integrating Assessment into Early Language Learning and Teaching Danijela Prošić-Santovac, Shelagh Rixon, 2019-08-07 The volume unites research and practice on integrating language learning teaching and assessment at preschool and early school age It includes chapters written by experts in the field who have

studied some of the very youngest pre primary children through to those up to the age of 12 in a variety of private and state contexts across Europe The collection makes a much needed contribution to the subject of appropriate assessment for children with the focus of many chapters being classroom based assessment particularly formative assessment or the case for developing assessment skills in relation to even the youngest children As a whole the book provides useful case study insights for policymakers teacher educators researchers and postgraduate students with interest in or responsibility for how children are assessed in their language learning It also provides practical ideas for practitioners who wish to implement greater integration of assessment and learning in their own contexts *Human Development* Mr. Rohit Manglik,2024-06-19
