papers and presentations but these documents don't often extend outside of a specific academic field. By adding movies as a medium of communication, scientists and engineers can better communicate with their colleagues while also increasing their reach to students, professors, peers, potential collaborators, and the public. Scientific films help translate complex technical topics into more accessible and consumable messages. By following Lauren Murphy's filmmaking formula (planning, shooting, and editing), readers will create their very own scientific films that look professional and polished. Using tools as simple as a smartphone, readers can develop short personal stories with no cost or experience needed. This book will guide readers through all steps of the movie-making process to a finished product. Readers will evolve their creative thinking skills and use their movies to improve classroom presentations, network across student organizations, present at conferences, recruit students for their labs, secure grant money, and more. Adding a movie to your body of work can be the tool that sparks interest in audiences, to learn more, driving traffic to your publications, research projects, and websites. This book will help you develop new skills to become a better communicator while spreading your ideas and research to new audiences.

Public Health 101: Improving Community Health Richard Riegelman, Brenda Kirkwood, 2018-03-07 From clean drinking water to seat belts to immunizations, the impact of public health on every individual is undeniable. For undergraduates, an understanding of the foundations of public health is an essential step toward becoming an educated citizen. *Public Health 101* provides a big picture, population perspective on the determinants of health and disease and the tools available to protect and promote health. It examines the full range of options for intervention, including use of the healthcare system, the public health system, and society-wide systems such as laws and taxation.

Summary BusinessNews Publishing, 2013 This work offers a summary of the book *Made to Stick* by Chip and Dan Heath. Sticky ideas are those which are highly memorable and exceptionally longlasting in their impact; it's the ideas that every business would like to develop. *Made to Stick* analyses sticky ideas, finding that whilst there are no hard-and-fast formulas for developing a sticky idea, there is a short checklist of six principles which most of the successful sticky ideas of the past have tended to use. Sticky ideas are usually simple, unexpected, concrete, credible, emotional, and story-based. In practical terms, the
