Political Thought From Machiavelli to Stalin E. A. Rees, 2004-03-12 This is the first book in English to explore the relationship between Stalin's ideas and methods and the practices advocated by Machiavelli and those associated with Machiavellian politics It advances the concept of revolutionary Machiavellism as a way of understanding a particular strand of revolutionary thought from the Jacobins through to Leninism and Stalinism By providing a wide ranging survey of European political thought in the Nineteenth and early Twentieth century E A Rees locates the Bolshevik tradition within the wider European tradition

The Radical Machiavelli, 2015-08-24 In *The Radical Machiavelli Politics Philosophy and Language* some of the finest Machiavellian scholars explore the Florentine's thought five hundred years after the composition of his masterpiece *The Prince* Their analysis however goes past *The Prince* extending to Machiavelli's entire corpus and shining new light on his political historical and military works with a special focus on their heritage in modern Marxist thought the arena in which they reverberate most profoundly and originally Rather than a neutral comprehensive and safe interpretation this book offers a partial and even partisan reading of Machiavelli the 16th century thinker who continues to divide scholars and interpreters forcing them to confront their responsibility as contemporary thinkers in a global society where Machiavelli's ideas and the

K. Marriott,2014-01-22 The Prince is a political treatise by the Italian diplomat historian and political theorist Niccol Machiavelli From correspondence a version appears to have been distributed in 1513 using a Latin title De Principatibus About Principalities However the printed version was not published until 1532 five years after Machiavelli s death This was done with the permission of the Medici pope Clement VII but long before then in fact since the first appearance of the Prince in manuscript controversy had swirled about his writings Although it was written as if it were a traditional work in the mirrors for princes style it is generally agreed that it was especially innovative This is only partly because it was written in the vernacular Italian rather than Latin a practice which had become increasingly popular since the publication of Dante s Divine Comedy and other works of Renaissance literature The Prince is sometimes claimed to be one of the first works of modern philosophy especially modern political philosophy in which the effective truth is taken to be more important than any abstract ideal It was also in direct conflict with the dominant Catholic and scholastic doctrines of the time concerning how to consider politics and ethics Although it is relatively short the treatise is the most remembered of his works and the one most responsible for bringing the word Machiavellian into wide usage as a pejorative term It also helped make Old Nick an English term for the devil and even contributed to the modern negative connotations of the words politics and politician in western countries In terms of subject matter it overlaps with the much longer Discourses on Livy which was written a few years later In its use of near contemporary Italians as examples of people who perpetrated criminal deeds for politics another lesser known work by Machiavelli which The Prince has been compared to is the Life of Castruccio Castracani The descriptions within The Prince have the general theme of accepting that the aims of princes such as glory and survival can justify the use of immoral means to achieve those ends He who neglects what is done for what ought to be done

sooner effects his ruin than his preservation Machiavelli Chapter 15 The Prince **The Prince** Niccolò Machiavelli, 1995-10

The claim that Machiavelli was the first modern thinker is out of tune with the latest insights of economic social and gender historians which is why Paul Sonnino has prepared this new up to date edition of Machiavelli's The Prince In his lucid introduction Sonnino argues that Machiavelli had much more in common with the late medieval world in which he was living than he did with the modern world that had not yet emerged It is an argument we need to resolve if we wish to arrive at a definition of modernity Scrupulously faithful to the wording of the original Italian Sonnino's translation is extremely daring in its transposition of phrases and clauses so that the text flows as passionately in English as it does in the original The authority of this edition is fully supported by its scholarly annotations and its useful maps Here is the edition of The Prince that finally confronts the myth of Machiavelli's modernity **The Prince, by Niccolò Machiavelli** Niccolò Machiavelli, Nelle Fuller, William K. Marriott, 1963 **Le Prince de Machiavel Et La Theorie de L'Absolutisme** Couzinet L, 2013-12-07 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book **Machiavelli**, 2023-07-10 **The Prince by Nicolo Machiavelli** Niccolò Machiavelli, Ann Mary Thatcher, Hasan Yahya, 2012-02-21 This book was demanded in an age of chaos where governance was primitive and traditional It puts the rules of monarchy regime The book became a landmark for politicians and political science students Even though the rules of Machiavelli were under scrutiny which publicize the to ends justify the means But the ideas in the book are broader than this slogan It is a new idea of ruling It may not only guide the Prince of but to all governors who like to apply some of the Prince content As a new idea in politics Machiavelli in his words describe the difficulty of such rules He noted There is nothing more difficult to take in hand more perilous to conduct or more uncertain in its success than to take the lead in the introduction of a new order of things Nicolo Machiavelli The Prince **The Prince** Niccolò Machiavelli, 1998-09 Mansfield's translation of this classic work in combination with the new material added for this edition makes it the definitive version of The Prince indispensable to scholars students and lovers of the dark art of politics *The Prince* William K Marriott, Niccoló Machiavelli, 2020-11-27 Any man who tries to be good all the time is bound to come to ruin among the great number who are not good Hence a prince who wants to keep his authority must learn how not to be good and use that knowledge or refrain from using it as necessity requires Niccolo Machiavelli The Prince The Prince the most remembered of Niccolo Machiavelli's works is written to serve as a practical guide for ruling It was dedicated to the then governor of Florence Lorenzo de Medici to win the latter's favor Machiavelli hoped that with this book he'll be able to land an advisory position within the Florentine government The book

talks about politics human nature warfare fear versus love free will morality and ethics among others Containing 26 Chapters with parts that has been extensively commented on over centuries some even criticized it as immoral evil and wicked Chapters 1 to 5 mainly discusses autocratic and republican regimes These chapters define various types of princes as well as principalities old or conquered and new The next chapters up to the 14th are where Machiavelli states his practical advice on a wide variety of matters such as but not limited to gaining power over new states alliances maintaining military strength and rebellion Chapters 15 to 23 is focused on the characteristics of the prince himself Finally Machiavelli linked the last sections to a specific historical context Italy s disunity Machiavelli gave his opinion and analysis on past Italian rulers failure and concludes with a plead to the future rulers of the nation This is also where he states his belief that only Lorenzo de Medici to whom the book is dedicated can restore Italy s honor and pride Get your copy now and learn how to become the ruler

The Prince by Niccolo Machiavelli - Large Print Edition Niccolo Machiavelli, 2009-09 With *The Prince* Machiavelli made his name synonymous with intrigue and cunning for all time His instructions to the Prince on achieving and maintaining power by any and all means available became the archetypical philosophy of The Ends Justify The Means Machiavelli advocated that political expediency supersedes morality and that success by any means is its own justification His cold calculating logic sweeps aside and dismisses all arguments against the use of every manner of deceit and dishonesty for a ruler to achieve his ends on the basis that those ends once achieved are in themselves sufficient justification Not only does Machiavelli make philosophical arguments for his viewpoint he gives numerous practical examples of behavior which are generally considered to be both ruthless and invariably successful For nearly 500 years politicians of all stripes have found that in ignoring Machiavelli s views they become easy prey to those who are willing to employ Machiavellian methods Machiavelli is considered by many to be the Father of Modern Political Theory His influence has been immense and his writings particularly *The Prince* will undoubtedly continue to influence many generations to come
