Magic, Myths and Legends of the Ancient World Midori Severi, 2014-10-21 MAGIC MYTHS AND LEGENDS OF THE ANCIENT WORLD THE civilization of Ancient Egypt lasted longer than the entire span of what we have come to accept as recorded history over three thousand years During these millennia the Egyptians developed a multitude of gods and goddesses as well as esoteric practices the meaning of which we are still trying to unravel Besides this Egypt was the source of the first true monotheistic religion under the Pharaoh Akhenaton THE great period of the Crusades which filled the whole of the twelfth century brought to Europe the narrative genius of the oriental races which told far more attractively than was the manner of the rather monotonous mysticism of Christian legends of the marvelous deeds and adventures of chivalry all mixed up with fairies giants and miracles Among these innumerable tales one of the most popular is the story of the enchanter Merlin and the beautiful fairy Vivien THERE are various versions of Merlin s death Some legends say he died of extreme old age for magicians are no more immortal than other men some pretend that he was carried off by the Devil But in Brittany popular belief has it that he is still alive that he is still living beside the beautiful Vivien and that he has the appearance of a handsome young man thanks to the elixir of life whose secret he alone possesses It is also claimed that the forest of Broc liande still exists in Finistere but it is only visible to those who believe in Magic **Mythology Magazine**

ancient maps to indicate the edges of the known world and what lay beyond Heroes who ventured there were only as great as the beasts they encountered This encyclopedia contains more than 2 200 monsters of myth and folklore who both made life difficult for humans and fought by their side Entries describe the appearance behavior and cultural origin of mythic creatures well known and obscure collected from traditions around the world The Materiality of Magic Ceri Houlbrook,Natalie Armitage,2015-12-31 The subject of magic has long been considered peripheral and sensationalist the word itself having become something of an academic taboo However beliefs in magic and the rituals that surround them are extensive as are their material manifestations and to avoid them is to ignore a prevalent aspect of cultures worldwide from prehistory to the present day The Materiality of Magic addresses the value of the material record as a resource in investigations into magic ritual practices and popular beliefs The chronological and geographic focuses of the papers presented here vary from prehistory to the present day including numinous interpretations of fossils and ritual deposits in Bronze Age Europe apotropaic devices in Roman and Medieval Britain the evolution of superstitions and ritual customs from the voodoo doll of Europe and Africa to a Scottish wishing tree and an exploration of spatiality in West African healing practices The objectives of this collection of nine papers are twofold First to provide a platform from which to showcase innovative research and theoretical approaches in a subject which has largely been neglected within archaeology and related disciplines and secondly to redress this neglect The papers were presented at the 2012 Theoretical Archaeology Group TAG conference in Liverpool
