Muhammed,Nik Shanita Safii,Lian Yee Kok,Raja Mohammed Firhad Raja Azidin,Noor Azuan Abu Osman,Roosfa

Hashim,2023-07-01 This book gathers papers presented at the 8th International Conference on Movement Health and

Exercise MoHE 2022 with the conference theme Enhancing Health and Sports Performance by Design The topics covered include exercise science human performance physical activity and health sports medicine sports nutrition management and sports studies and sports engineering and technology Its content is of interest to sports scientists researchers and practitioners from various sports and exercise sub disciplines *Food in a Just World* Tracey Harris,Terry Gibbs,2023-12-07

Food in a Just World examines the violence social breakdown and environmental consequences of our global system of food production distribution and consumption where each step of the process is built on some form of exploitation While highlighting the broken system s continuities from European colonialism the authors argue that the seeds of resilience resistance and inclusive cultural resurgence are already being reflected in the day to day actions of communities around the world Calling for urgent change the book looks at how genuine democracy would give individuals and communities meaningful control over the decisions that impact their lives when seeking to secure humanely this most basic human need Drawing on the perspectives of advocates activists workers researchers and policymakers Harris and Gibbs explore the politics of food in the context of capitalist globalization and the climate crisis uncovering the complexities in our relationships with one another with other animals and with the natural world **Integrating Worlds** Scott D. Carpenter,Helena

Kaufman,Malene Torp,2023-07-03 What if our students learn the most when they re far from campus *Integrating Worlds* demonstrates how high quality off campus study epitomizes integrative learning both supporting and enhancing the entire undergraduate experience While off campus study both study abroad or study away occupies a marginal position on most campuses it has the almost unique capacity to bring together a high concentration of high impact educational practices When we combine global learning with collaborative work shared intellectual pursuits learning communities and more these practices reinforce each other exerting a multiplier effect that can potentially result in the most intense learning experience our students will have It can energize and inspire them for the work they will continue to undertake on their home campus It thus becomes crucial for us to identify or design high quality programs that will achieve these goals Moreover we need to reimagine off campus study as an integrated portion of the undergraduate arc one that begins well before our students

depart and continues long after they return In this way we help them understand the interconnectedness not only of the world but also of their own education At the same time the authors recognize material constraints and educational imperatives Off campus study costs money its complexity makes it difficult to assess it overlaps increasingly with internships and civic engagement and by its nature it is more subject to external forces than the on campus experience In careful practical ways Integrating Worlds advances suggestions for dealing with these issues This book urges educators to go beyond the episodic ways we currently link on campus curricula to off campus experience While of interest to specialists in international or intercultural education it speaks most directly to faculty deans and provosts many of whom may have little or dated experience of study abroad and who thus feel unprepared to address this issue of pressing importance As our disciplines and institutions face the complexities of a rapidly changing world this book seeks to fuel the necessary conversations

Refugees and Higher Education Lisa Unangst,Hakan Ergin,Araz Khajarian,Tessa DeLaquil,Hans de Wit,2020-07-13 Refugees and Higher Education provides a cross disciplinary lens on one American university s approach to studying the policies practices and experiences associated with the higher education of refugee background students The focus is not only on refugee education as an issue of access and equity but also on this phenomenon as seen through the lens of internationalization What competencies are called for among university faculty and staff welcoming refugee background students to their institutional contexts How might distance learning be considered anew These challenges and opportunities for institutional growth will be closely considered by this group of authors from educational leadership social work curriculum development and higher education itself They address key world regions and sub topics ranging from online education in refugee camps to the Brazilian and Colombian responses to the emerging crisis in Venezuela Scholars researching refugee education cross nationally often find that refugee education literature is parsed by disciplinary field This book in contrast offers a comprehensive multi disciplinary overview of refugee education issues around the world These perspectives also provide key insights for faculty and staff at higher education institutions that currently enroll asylees or refugees as well as those that may do so in the future
