Department of Basic Education,2016 Land, Memory, Reconstruction, and Justice Cherryl Walker,Anna Bohlin,Ruth Hall,Thembela Kepe,2010-06-05 Land is a significant and controversial topic in South Africa Addressing the land claims of those dispossessed in the past has proved to be a demanding multidimensional process In many respects the land restitution program that was launched as part of the country s transition to democracy in 1994 has failed to meet expectations with ordinary citizens policymakers and analysts questioning not only its progress but also its outcomes and parameters Land Memory Reconstruction and Justice brings together a wealth of topical material and case studies by leading experts in the field who present a rich mix of perspectives from politics sociology geography social anthropology law history and agricultural economics The collection addresses both the material and the symbolic dimensions of land claims in rural and urban contexts and explores the complex intersection of issues confronting the restitution program from the promotion of livelihoods to questions of rights identity and transitional justice A valuable contribution to the field of land and agrarian studies both in South Africa and internationally it is undoubtedly the most comprehensive treatment to date of South Africa s postapartheid land claims process and will be essential reading for scholars and students of land reform for years to come

From Polarisation to Multispecies Relationships Janet J. McIntyre-Mills,Yvonne Corcoran-Nantes,2021-08-05 This book explores the concept of multi species relationships and suggests critical systemic pathways to protect shared habitats This book discusses how the eradication of species as a result of rapid urbanisation places humanity at risk This book demonstrates how narrow anthropocentrism has focused on the rights of human beings at the expense of other species and the environment This book explores a priori norms and a posteriori measures and indicators to include and protect multiple species This book aims to strengthen institutional capacity and powers to address and extend the UN 2030 Sustainable Development Agenda by drawing on local wisdom but also the need to implement laws to prevent ecocide This book highlights that our fragile interdependence requires a recognition of our hybridity and interconnectedness within the web of life and suggests ways to reframe policy within and beyond the nation state to support living systems of which we are a strand **Farmer's Weekly** ,1917 **Tourism, Change and the Global South** Jarkko Saarinen,Jayne M.
