Employee turnover intention. Empirical evidence from the Savings and Loans Companies in Ghana Michael Asiedu Gyensare,2016-07-20 Master s Thesis from the year 2013 in the subject Leadership and Human Resources Miscellaneous grade A University of Ghana Legon University of Ghana Business School course MPhil Human Resource Management language English abstract The study examined the relationship among antecedents employee turnover intention and outcome variables First it was proposed that pay satisfaction job satisfaction affective commitment transformational leadership transactional leadership psychological climate normative commitment and continuance commitment would antecede employee turnover intention Next turnover intention was expected to influence perceptions of absenteeism Finally thoughts of quitting was presented as a moderator between turnover intention and absenteeism as acceptable or accountable work behaviour A nonexperimental cross sectional descriptive correlational design was adopted for the study Also the multi stage sampling method was used to select the three hundred and forty 340 employees who completed the survey instrument Hypotheses were tested through correlational and hierarchical regression analytic procedures The antecedent variables were all significant and inversely related to employee turnover intention and employee turnover intention on the other hand was also significantly related to acceptable absence legitimacy However for the turnover intention model the hierarchical regression analysis results indicated that affective commitment normative commitment pay satisfaction job satisfaction and transformational leadership predicted employees intention to quit For the absenteeism model the hierarchical regression analysis results showed that turnover intention did not influence employees perception of acceptable and accountable absence legitimacy and thoughts of quitting did not also moderate the postulated relationship It was concluded that management in the SLCs should pay utmost attention to employees pay satisfaction job satisfaction affective commitment normative commitment and transformational leadership in order to lessen or completely eliminate the high turnover rate in the NBFIs **Introduction of Different “Easy to Handle” Decision Making Techniques** Matthias

Ackermann,2015-06-11 Research Paper undergraduate from the year 2015 in the subject Business economics Miscellaneous FOM Hochschule f r Oekonomie und Management gemeinn tztige GmbH Hochschulstudienzentrum Freiburg course Management Decision Making language English abstract The most important job of any executive is making decisions It is also the toughest and riskiest job because bad decisions can damage a business and a career in some situations irreparably In many cases these bad decisions occur when alternatives were not clearly defined the right information was not collected the costs and benefits were not accurately weighed or the decision maker himself was sabotaged by the human brain In the present complex environment the executives call for a way to cope with the myriad factors that affect the achievement of goals and the consistency of the judgement the decision makers use to draw valid conclusions Harvard Business Review 2011 p 1 Saaty 2013 p 6 Many difficulties like uncertainty about the future variation of consequences of different actions difficulties because of too few or too many available alternatives and complexity of a decision situation if more factors have to be taken into account make it more important to support the decision makers with procedures and tools that have been developed for a systematic selection of requirements and processing of relevant information The general approach of decision making ranges from the highly complex problems to the relatively simple choices but ensures its applicability and can be helpful in various decisions So it is not only relevant to executives and managers but also to physicians politicians judges and engineers to structure analytical thinking which supports decision making perceived as rational and well founded Eisenfuhr et al 2010 p 3 This assignment introduces different easy to handle decision making techniques that help to decide rather on intuition than on structured analysis and methodical dissection
