A Modern Guide to Post-Keynesian Institutional Economics Whalen, Charles J., 2022-04-19
This Modern Guide advances Post Keynesian Institutional economics, an integrative tradition inspired by keen economic observers such as John Kenneth Galbraith, Joan Robinson and Hyman Minsky, that bridges Institutional and Post Keynesian economics. The tradition proved its worth by addressing the global financial crisis of 2007-2009 as well as by analyzing long term trends accompanying the evolution of investor driven money manager capitalism, including financialization, spreading worker insecurity and rising inequality. The book begins with the history and contours of Post Keynesian Institutionalism and then breaks new ground, extending recent analyses of contemporary economic problems, sharpening concepts and methods, sketching new theories and synthesizing ideas across research traditions.

A Modern Guide to Economic Thought Douglas Mair, Anne Miller, 1991
This book provides a comprehensive introduction to the main schools of contemporary economic thought, presenting the current state of each school in its own terms, indicating its *raison d'être*, why each school thinks as it does, and the questions to which it is trying to find answers. There is an introductory chapter on the philosophy and methodology of economics, and separate chapters on the Austrian, neoclassical, Chicago, Keynesian, post Keynesian, Institutional, Evolutionary and Radical/Martian schools, each written by an economist with specialist knowledge of the particular school. The book explains, in straight forward terms, the ideologies, methodological practices, issues, assumptions, evidence and conclusions in a positive and constructive way. Summaries are provided to allow readers to establish the principal features of each school.
