Language As Commodity Global Structures Local Marketplaces:

Language As Commodity Rani Rubdy, Peter Tan, 2008-09-21 Throughout human history languages have been in competition with each other. As the world becomes more globalized, this trend increases. It affects the decision making of those in positions of power and determines macro language policies and planning. Often decisions about language or dialects or language variety are related to usefulness defined in terms of their pragmatic and commercial currency or their value as symbols of socio cultural identity. Languages can be modes of entry into coveted social hierarchies or strongholds of religious, historical, technological, and political power bases. Languages are seen now as commodities that carry different values in an era of globalization. This volume engages with language policies and positions in relation to the roles and functions these languages adopt. It examines the value of languages defined in terms of the power they have in the global marketplace as much as within the complex matrices of the local socio politics. These valuations strongly underpin the various motivations that influence policy making decisions, and in turn these motivations create the tensions that characterize many language related issues, tensions that arise when languages become commodified.

The Routledge Handbook of Migration and Language Suresh Canagarajah, 2017-02-03 Winner of AAAL Book Award 2020 Shortlisted for the BAAL Book Prize 2018 The Routledge Handbook of Migration and Language is the first comprehensive survey of this area, exploring language and human mobility in today's globalised world. This key reference brings together a range of interdisciplinary and multidisciplinary perspectives drawing on subjects such as migration studies, geography, philosophy, sociology, and anthropology. Featuring over 30 chapters written by leading experts from around the world, this book examines how basic constructs such as community, place, language, diversity, identity, nation, state, and social stratification are being retheorized in the context of human mobility. It analyses the impact of the mobility turn on language use, including the parallel multilingual turn and translanguaging. It discusses the migration of skilled and unskilled workers, different forms of displacement, and new superdiverse and diaspora communities. It explores new research orientations and methodologies such as mobile and participatory research, multi-sited ethnography, and the mixing of research methods. It investigates the place of language in citizenship, educational policies, employment, and social services. The Routledge Handbook of Migration and Language is essential reading for those with an interest in migration studies, language policy, sociolinguistic research, and development studies.

Race and Ethnicity in English Language Teaching Christopher Joseph Jenks, 2017-08-14 This book examines racism and racialized discourses in the ELT profession in South Korea. The book is informed by a number of different critical approaches to race and discourse, and the discussions contained in the chapters offer one way of exploring how the ELT profession can be understood from such perspectives. Observations made are based on the understanding that racism should not be viewed as individual acts of discrimination but rather as a system of social structures. While the book is principally concerned with language teaching and learning in South Korea, the findings are situated in a wider discussion of race and

ethnicity in the global ELT profession The book makes the following argument White normativity is an ideological commitment and a form of racialized discourse that comes from the social actions of those involved in the ELT profession this normative model or ideal standard constructs a system of racial discrimination that is founded on White privilege saviorism and neoliberalism Drawing on a wide range of data sources this book is a must read for anyone interested in critically examining ELT

English in China Songqing Li,2022-06-14 English related linguistic creativity and language commodification are a constant topic of interest and analysis for scholars This volume is intended to initiate a dialogue between these two domains of inquiry that have been abundantly addressed but rarely documented together or in relation to one another English as used in mainland China is presented as a case study where it remains rather unclear the extent to which the language is actually used in people s lives outside the domain of education The volume enriches existing empirical studies by exploring the creative and innovative uses of English in people s lives and its commodification at different language centred economic spaces within China while also providing an update of our understanding of the sociolinguistic situation of English in China a country undergoing rapid socio economic transformation English in China is the first attempt to discuss the possible relationship intersection and tension between two seemingly inseparable research topics The book is an important resource for students and scholars in the fields of Applied Linguistics Bilingualism Sociolinguistics Translation and Contemporary Chinese Studies
