**The Philosophy of Spirituality** Heather Salazar, Roderick Nicholls, 2018-11-05 The essays in *The Philosophy of Spirituality* explore a new field in philosophy. Until recently, most philosophers in the analytic and continental Western traditions treated spirituality as a religious concept. Any non-religious spirituality tended to be neglected or dismissed as irremediably vague. Here, from various philosophical and cultural perspectives, it is addressed as a subject of independent interest. This is a philosophical response to increasing numbers of spiritual but not religious people inhabiting secular societies and the heightened interaction between a multitude of spiritual traditions in a globalized age. A provocative array of approaches: African, Indigenous, Indian, Stoic, and Sufic perspectives, as well as Western analytic and continental views, offer fresh insights, many articulated by emerging voices. Contributors are Mariapaola Bergomi, Moses Biney, Christopher Braddock, Drew Chastain, Kerem Eksen, Nikolay Milkov, Roderick Nicholls, Jerry Piven, Heather Salazar, Eric Steinhart, Richard White, Mark Wynn, and Eric Yang

**Mental and Physical Disability Law Reporter**, 2000 Racism and Human Development Luciana Dutra-Thomé, Dóris Firmino Rabelo, Dandara Ramos, Emanuelle Freitas Góes, 2021-11-19 This book addresses the lifelong effects of racism, covering its social, psychological, family, community, and health impacts. The studies brought together in this contributed volume discuss experiences of discrimination, prejudice, and exclusion experienced by children, young people, adults, older adults, and their families; the processes of socialization, emotional regulation, and construction of ethnic/racial identities; and stress-producing events associated with racism. This volume intends to contribute to a growing international effort to develop an antiracist agenda in developmental psychology by showcasing studies developed mainly in Brazil, the country with the largest black population in the world outside of Africa. Racism, as an ideology that structures social relations and attributes superiority to one race over the others, has developed in different ways in different countries. As a response to the 2020 social and health crisis, some North American developmental psychologists have started promoting initiatives to openly challenge racism. This book intends to contribute to this movement by bringing together studies conducted mainly in Brazil but also in Germany and Norway that adopt a racially informed approach to different topics in developmental psychology. *Racism and Human Development* intends to be an inspiration to students, scholars, and practitioners who are seeking tools and examples of studies of race and racism from a developmental perspective. The establishment of an antiracist agenda in developmental psychology will never be possible without a commitment to the study of race as an indispensable social marker of human ontogeny in any society. This book is another
