**Constitutional Patriotism in Obama's Anti-Terror Speeches** Otto Möller, 2019-03-27 Seminar paper from the year 2016 in the subject Politics Region USA grade 1  
7 University of Kent language English abstract What is Constitutional Patriotism How is it used in his three speeches to

gather the spirits of the Americans How does the notion of nation state differ between the EU and the United States According to Ernest Gellner It is nationalism which engenders nations and not the other way round Surely most nations were formed on a nationalistic idea but with nationalism follows patriotism and a sense of proselytisation First of all what is a nation and why is it of relevance for today s international system A nation defines itself through its territory its culture and its political community which is represented and run by a sovereign organized government The unite state acts motivated by self interests States are the most common structure of state organisation in the international system They enjoy independence and legitimacy Nation states are of extraordinary relevance for the field of international relations because they are more robust once they are established based on a distinct nationality Moreover it is the only structure in which the growth of democracy is possible and which does not have a tendency to expand its territory This strong and steady status of nations turned out to be crucial for the development of modern financial industrial and technological civilization in Western Europe in the 17th and 18th centuries It was only in the 16th and 17th century that the people of a state obtained the right to choose their representatives before that they were subjects to the ruler of the state States ruled in that way had seven different forms personal rule theocracy city state oligarchy military state tribal state and empire Heidegger's Question of Being Holger Zaborowski,2017 The number of open and controversial questions in contemporary Heidegger research continues to be a source of scholarly dialogue There are important questions that concern the development as it were of his thought and the differences and similarities between his early main work Being and Time and his later so called being historical thought the thinking of the event or appropriation of Being There are questions that focus on his relation to important figures in the history of ideas such as the pre Socratics Plato Aristotle Thomas Aquinas Descartes Leibniz Kant the German idealists and Nietzsche Other questions focus on his biography on his rectorate and on his relation to politics in general and to National Socialism in particular or on his influence on subsequent philosophers The contributions to this volume written by leading scholars in the field of Heidegger research address many of these questions in close readings of Heidegger s texts and thus provide sound orientation in the field of contemporary Heidegger research They show how the different trajectories of Heidegger s thought his early interest in the meaning of Being and in Dasein his discussion of and involvement with politics his understanding of art poetry and technology his concept of truth and the idea of a history of Being all converge at one point the question of Being It thus becomes clear that all differences notwithstanding Heidegger followed one very consistent path of thinking **EssaySnark's Strategies for the 2014-'15 MBA Application for MIT Sloan** Essay Snark,2014-07-10 Gah What to do with the MIT recommendation essay question And how should you handle their first essay about their mission Both of these are non trivial questions and we have devoted our longest ever MBA application strategy guide to helping you work through a solid approach to dealing with them What s critical to know is that career goals are surprisingly unimportant at MIT To assess whether you ll be a high achiever in the future MIT wants to hear
