

**MANDATORY****SERVICE BULLETIN**

**DATE:** October 17, 2008

Service Bulletin No. 584B  
(Supersedes Service Bulletin No. 584A)  
Engineering Aspects  
FAA Approved

**SUBJECT:** Reprint of MANDATORY Unison Service Bulletin No. SB3-08A

**MODELS AFFECTED:** All Lycoming new, overhauled, rebuilt, or repaired engines with:

1. A Slick model 4200/4300/6200/6300 series magneto with a serial number beginning with 0409#### through 08080453.
2. A LASAR model 4700/6700 series magneto with a serial number beginning with 0409#### through 08080453.
3. Any magneto which has had the carbon brush or distributor block assembly replaced with components packaged between September 1, 2004 and August 14, 2008.

**NOTE 1:** The magneto model number and serial number can be found on the magneto identification plate.

**TIME OF COMPLIANCE:** At the first 25 hours of engine operation, then at 500 hours of engine operation, or at annual inspection; whichever occurs first, until terminating action is accomplished.

Lycoming has learned that all new, overhaul, rebuilt, or repaired engines with a Unison Industries Slick model 4200/4300/6200/6300 series or LASAR model 4700/6700 series magneto with the serial number range listed above may experience premature carbon brush wear. Premature brush wear can lead to failure of the magneto to provide a consistent spark and may cause loss of engine power.

Unison Industries MANDATORY Service Bulletin No. SB3-08A is reprinted in its entirety as follows. The compliance measures stated in the Unison service bulletin are reflective of an assessment at the component level of a single magneto.

Lycoming Engines time of compliance differs from the Unison recommendation because the engine system is comprised of redundant magnetos. Additionally, pre-flight inspection procedures include magneto checks which ensure that both units are operational prior to flight. The system design and recommended operating procedures result in an incident rate for complete power loss below that required for Class I aircraft (reference: FAA AC 23.1309-1C page 16, Figure 2; available at <http://rgl.faa.gov/>).
