Public Opinion and the End of Appeasement in Britain and France Daniel Hucker, 2016-04-15 The 1930s policy of appeasement is still fiercely debated by historians critics and contemporary political commentators more than 70 years after the signing of the 1938 Munich Agreement What is less well understood however is the role of public opinion on the formation of British and French policy in the period between Munich and the outbreak of the Second World War not necessarily what public opinion was but how it was perceived to be by those in power and how this contributed to the policymaking process It therefore fills a considerable gap in an otherwise vast literature seeking to ascertain the extent to which public opinion can be said to have influenced the direction of foreign policy in a crucial juncture of British and French diplomatic history Employing an innovative and unique methodological framework the author distinguishes between two categories of representation firstly reactive representations of opinion the immediate and spontaneous reactions of the public to circumstances and events as they occur and secondly residual representations which can be defined as the remnants of previous memories and experiences the more general tendencies of opinion considered characteristic of previous years even previous decades It is argued that the French government of douard Daladier was consistently more attuned to the evolution of reactive representations than the British government of Neville Chamberlain and consequently it was the French rather than the British who first pursued a firmer policy towards the European dictatorships This comparative approach reveals a hitherto hidden facet of the diplomatic prelude to the Second World War that British policy towards France and French policy towards Britain were influenced by their respective perceptions of public opinion in the other country A sophisticated analysis of a crucial period in international history this book will be essential reading for scholars of the origins of World War II the political scenes of late 1930s Britain and France

**The People, the Workers, and the Citizens** Mattie

Fitch, 2025-12-31 In the 1930s activists with France's Popular Front mobilized culture against fascism Examining music theater film art and festivals in Paris Marseille and Rouen this book analyses approaches to antifascism and how they varied and interacted across different regions and left wing traditions By combining revolutionary republican and working class heritage antifascists aimed to foster unifying identities to mobilize the French people Simultaneously the distinct outlooks of Communists Radicals and Socialists in addition to the different visions among national figures in Paris and local activists produced divergent understandings of antifascist culture ultimately weakening the coalition This study explains the political social and cultural context of the 1930s that generated these movements to break down barriers between ordinary citizens and French culture It also explores how antifascists constructed the French people an ambiguous concept that carried both social and civic connotations Aimed at a scholarly audience this volume engages with historians of modern France and the interwar period in Europe and will interest researchers in antifascist and fascist studies as well as the fields of cultural politics republicanism communism socialism and national and regional identity

Steiner,2011-03-31 Following on her acclaimed study of the collapse of international security during the early 1930s Zara Steiner gives a dramatic and authoritative account of the coming catastrophe She shows that the era of Hitler's rise to power an ascent bent on war was founded on ideologies which the democratic perception could neither penetrate nor arrest Like few others this survey takes both European and East Asian conflicts into interlocking accounts In the light of new material she refutes attempts to whitewash Mussolini argues that Anglo French military response in 1938 had realistic prospects traces the global ramifications of Sino Japanese wars and evaluates Moscow's diplomatic options Zara Steiner shows that only Hitler regarded the Jewish question as of primary importance Lucid formidably documented this profoundly original work will alter our perceptions of the tragic decisive epoch from which our present world map has emerged **Les protestants, l'école et la laïcité : XVIIIe-XXe siècles** Patrick Cabanel,2006 Parmi les contributions Enseignement protestantisme modernité les écoles du pays de Montbéliard 1724-1833 E Berlioz La Société pour l'encouragement de l'instruction primaire parmi les protestants de France 1829 années 1880 P Cabanel Un protestant laïcité de l'enseignement secondaire Elie Rabier Y Verneuil Les protestants face la loi Debr de 1959 A Encrev **Centre d'histoire sociale du XXe siècle** ,2004 *Quelle école et quels enseignants ?* André Payan-Passeron,2006-04-15 A partir de l'analyse sociologique sur trois générations de la promotion 1958-62 des 34 normaliens d'Avignon André Payan Passeron retrace l'histoire critique du système éducatif français et de ses enseignants des années 1920 aux années 2000 *Le Monde de l'éducation* ,2006 *Alexandre Millerand* Jean-louis Rizzo,2013-09-01 Chef du gouvernement français puis président de la République Alexandre Millerand traverse toute l'histoire de la IIIe République Promoteur du socialisme réformiste il évolue vers les modérés et devient un des chefs du centre droit Dans les dernières années de sa vie il est lucide face au danger hitlérien mais devient de moins en moins courageux La découverte de sa vie et de son parcours montre l'importance de son rôle à l'époque d'une République qu'il a présidée mais qu'il n'a jamais aimée Le Parti radical-socialiste et le Front populaire 1934-1938 Pascal-Eric Lalmy,2007 Bulletin de la Société de l'histoire du protestantisme français Société de l'histoire du protestantisme français (France),2008 Jubilé du soixante-quinzième anniversaire Paris et Noyon 8-10 juillet 1927 v 76 1927 p 305-389 *Les grandes figures du radicalisme* Stéphane Baumont,2001 **Bulletin** Centre d'histoire sociale du XXe siècle (Université de Paris I: Panthéon-Sorbonne),2003 Deux siècles de débats républicains (1792-2004) Paul Baquiast,2004 Évoque le rôle de l'idée républicaine en France depuis une vingtaine d'années en reconnaissant deux types de républicains ceux pour qui l'Universel est une donnée immédiate laquelle l'individu peut accéder et les seconds sont ceux pour qui l'Universel n'existe pas a priori mais il est en perpétuelle construction **Jean Jaurès cahiers trimestriels** ,2005 **Histoire de la formation des enseignants en France** Jean-François Condette,2007 Comment former des enseignants instruits et pédagogues qui sachent intensifier leurs élèves tout en transmettant de nombreux savoirs certaines valeurs et méthodes de travail Cet ouvrage propose une lecture problématisée de l'histoire de la formation des enseignants la fois du primaire et du secondaire en France sur la longue durée en

centrant l'analyse sur les XIXe et XXe siècles et en s'appuyant sur de nombreux documents Terres d'élections François Dubasque, 2014. Employés sans réelle distinction de sens par la plupart des commentateurs de la vie politique l'occasion des soirées lectorales les expressions de fief bastion terre de mission et d'insertion lectoraux semblent communément renvoyer une identité politique locale où s'entremêlent tradition folklore et jeu d'influence d'une famille ou d'une personnalité politique. Au-delà des clichés viciés par l'abondance de références métaphoriques ces expressions soulèvent de véritables enjeux méthodologiques pour les historiens travaillant sur les identités et cultures politiques l'approche biographique ou la monographie approfondissant le phénomène de territorialisation de la vie politique implique de prêter autant d'attention aux lecteurs explication des votes et analyse des comportements lectoraux qu'aux lus travers le cumul des mandats le savoir-faire électoral ou la notabilité. Cette voie d'entrée doit conduire à analyser avec profit les positions de pouvoir politique et leur ancrage territorial. C'est donc un programme ambitieux que se fixe cet ouvrage collectif puisqu'il s'agit cent ans après de reprendre nouveaux frais l'enquête pionnière conduite par André Siegfried en 1913 dans son fameux Tableau politique de la France de l'Ouest mais avec une double complexification. La confrontation des travaux et méthodes d'une trentaine de spécialistes permet en effet de saisir l'ensemble national en variant les focales avec de surcroît quelques coups de projecteur sur l'international et le tout sur deux siècles d'histoire contemporaine. S. Bernstein. Cette démarche stimulante confirme tout l'intérêt d'une approche de la vie politique française sous l'angle territorial. P 4 of cover Bibliographie annuelle de l'histoire de France du cinquième siècle à 1958, 2005 Les gauches de gouvernement et l'école Ismaïl Ferhat, 2019. Les gauches de gouvernement entendues comme les forces politiques se réclamant de cette étiquette en France et ayant l'expérience du pouvoir affirment traditionnellement la priorité qu'elles accordent au savoir et à l'école. Les raisons d'un tel intérêt ne manquent pas : proximité sociologique entre celles-ci et de larges pans des professionnels de l'éducation orientation progressiste de la plupart des organisations éducatives syndicats enseignants éducation populaire mouvements pédagogiques attachement au caractère émancipateur de la connaissance. Dans le même temps les gauches se sont divisées parfois nettement sur l'éducation. De la laïcité scolaire la nature même de l'école en passant par le collège ou les méthodes pédagogiques les sujets d'opposition n'ont pas manqué entre leurs différentes sensibilités. Pourtant aucun ouvrage académique n'existait pour étudier cette interaction complexe entre gauches par-delà leur diversité et éducation depuis la IIIe République. C'est ce qu'attelle ce livre qui rassemble des chercheurs de différentes disciplines. Il lie des contributions scientifiques basées sur des sources locales comme nationales souvent inédites et des témoignages d'acteurs responsables politiques militants hauts fonctionnaires universitaires.
