Mcgraw Hill The First Israelites Study Guide:

Studying the Ancient Israelites Victor H. Matthews, 2007-10-01 Archaeology won't prove or disprove the Bible's truth claims. But archaeology combined with other bodies of evidence like historical geography, extrabiblical texts, anthropological insights, and careful study of the writings of ancient Israel allow us to reconstruct a reasonable picture of the ancient Israelites: how they lived, what they thought, and what their Scriptures mean. In *Studying the Ancient Israelites*, a seasoned professor uses accessible writing and an inviting page design to introduce students and serious readers to the foundations of our understanding of the people of the Old Testament. The American Historical Association's Guide to Historical Literature

American Historical Association, 1995. Contains nearly 2,000 annotated citations, primarily English language works, divided into four, eight sections. Citations refer chiefly to works published between 1961 and 1992. *Death and Survival in the Book of Job* Dan Mathewson, 2006-06-05 The Book of Job functions as literature of survival where the main character Job deals with the trauma of suffering, attempts to come to terms with a collapsed moral and theological world, and eventually reconnects the broken pieces of his world into a new moral universe which explains and contains the trauma of his recent experiences and renders his life meaningful again. The key is Job's death imagery. In fact, with its depiction of death in the prose tale and its frequent discussions of death in the poetic sections, Job may be the most death-oriented book in the Bible. In particular, Job in his speeches articulates his experience of suffering as the experience of death. To help understand this focus on death in Job, we turn to the psychohistorian Robert Lifton who investigates the effects on the human psyche of various traumatic experiences: wars, natural disasters, etc. According to Lifton, survivors of disaster often sense that their world has collapsed and they engage in a struggle to go on living. Part of this struggle involves finding meaning in death and locating death's place in the continuity of life. Like many such survivors, Job's understanding of death is a flashpoint indicating his bewilderment or desymbolization in the early portions of his speeches, and then later on his arrival at what Lifton calls resymbolization: the reconfiguration of a world that can account for disaster and render death and life meaningful again.
