Therefore, there is one more important aspect of the proposed framework, namely, the *flexibility* of the framework with respect to the type of input data. In addition to the input data, the framework can also accept the output data of the previous framework, which gives the framework the *flexibility* to be used in a variety of ways. For example, the framework can be used to generate the output data of the previous framework, which gives the framework the *flexibility* to be used in a variety of ways.
