**The Science Fiction Film in Contemporary Hollywood** Evdokia Stefanopoulou, 2023-07-27 The Science Fiction Film in Contemporary Hollywood focuses on the American science fiction SF film during the period 2001 2020 in order to provide a theoretical mapping of the genre in the context of Conglomerate Hollywood Using a social semiotics approach in a systematic corpus of films the book argues that the SF film can be delineated by two semiotic squares the first one centering on the genre s more than human ontologies SF bodies and the second one focusing on its imaginative worlds SF worlds Based on this theoretical framework the book examines the genre in

six cycles which are placed in their historical context and are analyzed in relation to cultural discourses such as technological embodiment race animal human relations environmentalism global capitalism and the techno scientific Empire By considering these cycles which include superhero films creature films space operas among others as expressions of the genre's basic oppositions the book facilitates the comparison and juxtaposition of films that have rarely been discussed in tandem offering a new perspective on the multiple articulations of the SF film in the new millennium From Film Adaptation to Post-Celluloid Adaptation Costas Constandinides, 2010-10-21 The main corpus of film adaptation thus far has focused on films based on canonical literature From Film Adaptation to Post Celluloid Adaptation takes the next logical step by discussing the emerging modes of film adaptation from older media to new mainly focusing on the computer generated reconstructions of popular narratives and characters along with other forms of convergence such as the Internet While New Media is a broad concept the book will concentrate on the ways digital technology is being used in the encoding of films and discuss the ways this shift can be debated from a theoretical perspective Though the discussion is framed through the new media lens the work will not exclude a broader understanding of New Media which refers to video games official websites and interactivity so as to examine how the visual style of contemporary films is dispersed across and influenced by other media Discussing films like Minority Report King Kong 300 and Wanted in relation to Film Adaptation theory the work aims to challenge and rework the definition of adaptation **Cultural Legal Studies of Science Fiction** Alex Green, Mitchell Travis, Kieran Tranter, 2024-10-28 This book presents and engages the world building capacity of legal theory through cultural legal studies of science and speculative fictions In these studies the contributors take seriously the legal world building of science and speculative fiction to reveal animate and critique legal wisdom juris prudence Following a common approach in cultural legal studies the contributors engage directly and in detail with specific cultural texts novels television films and video games in order to explore a range of possible legal futures The book is organized in three parts first the contextualisation of science and speculative fiction as jurisprudence second the temporality of law and legal theory and third the analysis of specific science and speculative fictions Throughout the contributors reveal the way in which law as nomos builds normative universes through the narration of a future This book will appeal to scholars and students with interests in legal theory cultural legal studies law and the humanities and law and literature Blueprint, 2002 Encyclopedia of Religion and Film Eric Michael Mazur, 2011-03-08 Comprising 91 A Z entries this encyclopedia provides a broad and comprehensive introduction to the topic of religion within film Technology has enabled films to reach much wider audiences enabling today's viewers to access a dizzying number of films that employ diverse symbolism and communicate a vast array of viewpoints Encyclopedia of Religion and Film will provide such an audience with the tools to begin their own exploration of the deeper meanings of these films and grasp the religious significance within Organized alphabetically this encyclopedia provides more than 90 entries on the larger religious traditions the major film producing regions of the globe the films that have stirred
