Toxicant:	This Product	Proposed Action Level For Kids**	% of Action Level
Lead (Pb)	Non-Detect <5 ppb	5 ppb*	n/a
Cadmium (Cd)	20 ppb	5 ppb	400%
Mercury (Hg)	Non-Detect <5 ppb	2 ppb	n/a
Arsenic (As)	14 ppb	10 ppb	140%

*ppb = parts per billion **There are currently no health-protective mandated "total content limits" for toxicants (as measured in ppb) for products in this product category; these **Action Levels** were proposed by the scientific and medical community with the Baby Food Safety Act of 2021— as intervention levels which are protective of children's health ("Action Level" = level at which action should be taken to reduce the level; also level at which the public should be informed that the level is concerning / has potential to cause harm to children). The proposed **Action Level** is shared here to lend context to the levels of toxicants found in this particular product, as all consumable products (foods & supplements) have the potential to impact pregnant women OR children. This is the graphic that accompanies the above referenced article. Concepts, context, and relevance are discussed in detail in the article.
