Bourque, 2015-01-22 Jayhawk The VII Corps in the Persian Gulf War is a highly readable account of the involvement of Lt Gen Frederick M Franks's command in Operation DESERT SHIELD DESERT STORM The arrival of Jayhawk the historic nickname for corps having the number seven with its armor heavy forces gave the coalition the offensive option to drive the Iraqi Army out of Kuwait but the rapid conclusion of the popularly known 100 Hour War with smart bombs precision guided weapons and efficient electronics fostered what Stephen A Bourque calls the illusion of a simple almost push button operation with a preordained outcome Arguing that the endeavor was anything but simple Bourque tells the full story of the VII Corps from its deployment to Saudi Arabia through its phases of preparation and its offensive against the Iraqi Army to finally its return to Europe and the United States in the process bringing alive the scale and complexities involved in assembling moving and controlling men and materiel Bourque's volume captures valuable combat lessons especially the singular performance of General Franks and the effectiveness of the U S Army's technology training leadership and warfighting doctrine It is a must read for all soldiers

Seeds of Victory Richard Denis Johnson, 1997 Psychological Warfare is by no means a new concept in warfare To the

layman however this particular aspect of armed conflict has seldom been greeted with understanding or even acknowledgment Accordingly not enough has been broadly or factually disseminated upon the subject to date Seeds of Victory explores in detail the component mechanics of an intensely orchestrated Psychological Warfare campaign while utilizing the most recent formant of the Persian Gulf War as a case in point for understanding The tremendous scale of the Persian Gulf War's Psychological Warfare campaign is evidenced by the fact that long before Coalition soldiers fired the first shots in that conflict a different class of army had already been assembled for months and was fiercely locked in a pitched battle for dominance over Saddam Hussein's citizens and soldiers alike Far away from blaring headlines and flashy newscasts violent graphic images of warfare civil unrest starvation disease and death were systematically bombarding Saddam Hussein's Empire in wave upon wave of leaflet and radio assaults That provocative campaign of psychological attrition and dominance is documented within this text through personal interviews with some of the commanders and soldiers who orchestrated and executed that campaign Their experiences will accompany the reader from the earliest planning and developmental stages through the production and into the final dissemination phases of demoralization As a reference source this text is of historical significance as it documents in exacting detail the many deceptive Psychological Warfare campaign methodologies and strategies which incited wide spread desertions and mutiny among as many as 150 000 front line Iraqi combat troops many of whom were battle hardened veterans of the fierce eight year war with Iran Seeds of Victory is also unique in that it has already demonstrated its value within the professional realm of the Psychological Warfare community since its having been officially adapted by the United States Army's Psychological Warfare Group Command as an instructional and reference work for use within their company level units
